

A photograph of a desert landscape at sunset. In the foreground, there are several cholla cacti with their characteristic segmented, spiny branches. Some branches are dark and silhouetted against the bright sky, while others are illuminated by the warm, golden light of the setting sun. The ground is rocky and covered with sparse desert vegetation. In the background, a large, rugged mountain rises, its slopes appearing dark and textured. The sky is filled with soft, wispy clouds, and the overall color palette is dominated by warm tones of orange, yellow, and brown.
