Small Country Gaël Faye, 2019-03-05 Already an international sensation and prize winning bestseller in France an evocative coming of age story of a young boy a lost childhood and a shattered homeland SHORTLISTED FOR THE ALBERTINE PRIZE NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ESQUIRE LONGLISTED FOR THE ANDREW CARNEGIE MEDAL FOR EXCELLENCE IN FICTION LONGLISTED FOR THE ASPEN WORDS LITERARY PRIZE Burundi 1992 For ten year old Gabriel life in his comfortable expatriate neighborhood of Bujumbura with his French father Rwandan mother and little sister Ana is something close to paradise These are carefree days of laughter and adventure sneaking Supermatch cigarettes and gorging on stolen mangoes as he and his mischievous gang of friends transform their tiny cul de sac into their kingdom But dark clouds are gathering over this small country and soon their peaceful existence will shatter when Burundi and neighboring Rwanda are brutally hit by civil war and genocide A novel of extraordinary power and beauty Small Country describes an end of innocence as seen through the eyes of a child caught in the maelstrom of history Shot through with shadows and light tragedy and humor it is a stirring tribute not only to a dark chapter in Africa's past but also to the bright days that preceded it

Small Country Innovation Systems Charles Edquist, Leif Hommen, 2009-01-01 What are the challenges that small countries face concerning innovation and what are the effects of globalization on their innovation systems In this very interesting rich and timely book Edquist and Hommen compare ten different small national innovation systems from the Asia Pacific and Northern Europe that are rather advanced in their development The answers that the authors give are convincing and relate not only to the unique characteristics of each national system that shapes innovative activity but also to some commonalities that exist across these countries Franco Malerba Bocconi University Italy This major book presents case studies of ten small country national systems of innovation NSIs in Europe and Asia namely Denmark Finland Hong Kong Ireland the Netherlands Norway Singapore South Korea Sweden and Taiwan These cases have been carefully selected as examples of success within the context of globalization and as new economies where competition is increasingly based on innovation To facilitate comparative analysis the ten studies follow a common structure informed by an activities based approach to describing and analysing NSIs which addresses the critical issues of globalization and the consequences of innovation for economic performance The final chapter compares fast growth and slow growth countries concentrating on issues of innovation policy The results illustrate the usefulness of an activities based approach to studying NSIs point to distinctive national roles within an increasingly differentiated international division of labour and address the key themes of selectivity and coordination in innovation policy This valuable book presents one of the most significant comprehensive and comparative country studies of NSIs in the last decade It will have great import and should be widely read by every serious student and scholar of innovation studies

Explaining Technical Change in a Small Country Synnöve Vuori, Pentti Vuorinen, 2013-11-21 Technical change is produced by the interaction of a large number of technical

economic social and institutional factors One of the starting points is the concept of national innovation systems The aim of this book is to take Finland as an example illustrating the challenges faced by small countries The characteristics and performance of the Finnish national innovation system of the last couple of decades are analyzed The Finnish experience is put in a broader context by comparing it with a few other countries The development paths possible in the near future are assessed According to the results many problems remain despite favourable developments in several technology indicators The rigidities of the social institutions created during the 1970s and 1980s seem to have become obstacles for economic and technological development There are fairly large differences between the countries studied and even between the culturally and historically close Nordic countries However Finland and Sweden seem to share the same kind of encompassing collective risk sharing systems which may have detrimental effects on for instance incentives related to innovativeness Increasing globalisation requires further development of the national system of innovation Technology policy must be seen as one part of more encompassing social and economic policies and the role of factors such as well functioning institutions appropriate education and sound incentive systems is highly important The papers of this book are written by experts of various research disciplines They reflect the respective views on the issue how technical change in Finland can be explained It is also discussed how Finland fares in comparison to Denmark Sweden Japan and the United States

The Internationalisation Strategies of

Small-country Firms Howard Dick, David Merrett, 2007-01-01 This research project combines contemporary and historical analysis to trace the evolution of Australian multinationals. It provides unique insights into how firms from a small economy achieved global competitiveness in their niche markets while examining the barriers that inhibited others. The evidence is presented in comparative industry and firm case studies and tells the story of international business made in Australia. The longitudinal and multi-level analysis in this research provides new insights that challenge the predominance of cross-sectional analytical framework dominating strategic management. Any scholars sincerely interested how companies from small countries can succeed on the global stage ought to read this book. Klaus E Meyer, University of Reading Business School, UK. The international business literature often struggles to depict a universal experience of internationalisation from the perspective of large countries. This book seeks to enrich the literature by providing a nuanced overview of the little-known Australian experience, being an atypical case of a small to medium-sized economy which liberalised rapidly from the 1980s outside any trading bloc. Six data-rich survey chapters explore Australia's mixed success in founding its own multinationals. The experience of Australian firms is set in historical and comparative perspective, including interactions with inward and specifically American FDI. Five industry studies next consider why firms in retail wine and professional services were more successful than in financial services and shipping. Nine detailed case studies of firms then identify the elements of administrative heritage, strategy and learning that have been the key to success or failure. The book concludes by outlining what can be learned from Australia's example and presenting implications for future research. *The Internationalisation Strategies of Small Country Firms* will appeal to scholars, researchers and postgraduate students in international business and international economics.

The Big Society in a Small Country Dan Boucher, 2013 This book argues that the Big Society concept is in a real sense more Welsh than English. It contends that Wales can add value to the development of big society ideas in practice and at the same time renew its own economic life, identity and traditions.

How to Eat a Small Country Amy Finley, 2012-07-03 *How to Eat a Small Country* shares a few key traits with Elizabeth Gilbert's *Eat Pray Love* in particular: an infectious likeable narrator and mouthwatering descriptions of European food. But Finley's memoir is less precious, more honest and ultimately more rewarding. Boston Globe. A professionally trained cook turned stay-at-home mom, Amy Finley decided on a whim to send in an audition tape for season three of *The Next Food Network Star* and the impossible happened: she won. So why did she walk away from it all? A triumphant and endearing tale of family food and France. Amy's story is an inspiring read for women everywhere. While Amy was hoping to bring American families together with her simple Gourmet Next Door recipes, she ended up separating from her French husband Greg, who didn't want to be married to a celebrity. Amy felt betrayed. She was living a dream or was she? She was becoming famous cooking for people out there in TV land in thirty minutes on a kitchen set instead of cooking and eating with her own family at home. In a desperate effort to work things out, Amy makes the controversial decision to leave her budding television career behind and move her

family to France where she and Greg lived after they first met and fell in love How to Eat a Small Country is Amy s personal story of her rewarding struggle to reunite through the simple everyday act of cooking and eating together Meals play a central role in Amy s new life from meeting the bunny destined to become their classic Burgundian dinner of lapin la moutarde to dealing with the aftermath of a bouillabaisse binge And as she Greg and their two young children wend their way through rural France they gradually reweave the fabric of their family At times humorous and heart wrenching and always captivating and delicious How to Eat a Small Country chronicles the food filled journey that one couple takes to stay together
