Small States In Years Of Deprebion The Oslo Alliance 19301940:

Small States in Years of Depression Ger van Roon,1989 *Small States in Europe* Robert Steinmetz,2016-04-01 The effects of recent institutional change within the European Union on small states have often been overlooked This book offers an accessible coherent and informative analysis of contemporary and future foreign policy challenges facing small states in Europe Leading experts analyze the experiences of a number of small states including the Netherlands the Czech Republic Slovakia Luxembourg Cyprus Iceland Austria and Switzerland Each account written to a common template explores the challenges and opportunities faced by each state as a consequence of EU integration and how their behaviour regarding EU integration has been characterized In particular the contributors emphasize the importance of power politics institutional dynamics and lessons of the past Innovative and sophisticated the study draws on the relational understanding of small states to emphasize the implications of institutional change at the European level for the smaller states and to explain how the foreign and European policies of small states in the region are affected by the European Union **Small Powers in the Age of Total War, 1900-1940** Herman Amersfoort,Wim Klinkert,2011-04-11 Usually it is a foreign military threat or the geopolitical position of a country that attracts the most attention as a factor to explain the emergence of the national security policies of small neutral powers like the Netherlands Belgium Denmark Norway and Switzerland in the period 1900 1940 While these factors may explain the similarities between these small states they fail to make clear why there were such great differences between them The authors of this volume argue that the internal politics and the politico military strategic cultures of the countries are vital keys to understanding their divergent reactions to similar or at least comparable foreign military threats World War I and German expansionism in the second half of the 1930s The contributors are Maartje Abbenhuis Michael Clemmesen Kjeld Galster Tom Kristiansen Paul Moeyes Williamson Murray Michael Olsansky Christian Paulin Matthias Strohn Anne Tjepkema and Joost Vaessen European Neutrals and Non-Belligerents During the Second World War Neville Wylie,2002 This collection provides a comprehensive English language survey of the conduct of neutral and non belligerent states during the war Instead of narrowly focusing on the few neutrals that survived the war intact the volume broadens our understanding of neutrality by including chapters on non belligerents and those neutrals of south east Europe such as Romania and Yugoslavia The essays focus on how individual neutral governments perceived international developments and throw light on the domestic political circumstances that critically affected their response to the course of the war They therefore provide the political context that has been overlooked in controversies surrounding their humanitarian and financial activities While based on the authors own research the essays draw widely on secondary literature and provide invaluable analytical introductions to the large amount of historical writing on these countries

Neutrality as a Policy Choice for Small/Weak Democracies Michael F. Palo,2019-07-08 In *Neutrality as a Policy Choice for Small Weak Democracies* Learning from the Belgian Experience Michael F Palo has three main objectives First he employs a

counterfactual approach to examine the hypothesis that had permanent neutrality not been imposed on Belgium in 1839 it would have pursued neutrality anyway until war broke out in 1914 Secondly he analyses why after abandoning obligatory neutrality during World War I the Belgians adopted voluntary neutrality in October 1936 Finally he seeks to use the historical Belgian case study to test specific International Relations Theories and to contribute to Small State Studies especially the behaviour of small weak democracies in the international system

Scandinavia and the Great Powers 1890-1940 Patrick Salmon, 2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890 1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours

Imagining European Unity since 1000 AD Patrick Pasture, 2015-05-28 European unity is a dream that has appealed to the imagination since the Middle Ages Its motives have varied from a longing for peace to a deep rooted abhorrence of diversity as well as a yearning to maintain Europe's colonial dominance This book offers a multifaceted history that takes in account the European imagination in a global context

Economic Adjustment and Political Transformation in Small States Erik Jones, 2008-05-08 The smaller countries of Western Europe have a reputation for being more successful than their larger neighbours They are wealthier per capita they are more stable politically and they are more flexible economically The secret to this success lies in their consensual style of politics and their corporatist style of decision making Unfortunately however that may be about to change A political transformation underway in small states is undermining the politics of consensus and breakdown the effectiveness of corporatist institutions Small countries are becoming increasingly vulnerable to the vicissitudes of world markets as a result Belgium and the Netherlands offer clear examples of the problem at hand The political societies of both countries were tightly organized to avoid conflict and to promote consensus Over time however this tight organization has broken down politicians have opted for conflict over consensus and elections have become more volatile as a result In turn this political transformation of Belgium and the Netherlands has undermined their traditional approach to economic policymaking and economic adjustment Belgium and the Netherlands are now more vulnerable to world market forces than at any time since the end of the 1970s Their relative economic and political success can no longer be taken for granted The relative success of other small states should be brought into question as well

Northern European Overture to War, 1939-1941, 2013-05-24 While the German invasion of Poland in September 1939 was a pivotal moment in European history and precipitated the outbreak of the Second World War

western historiography has largely neglected Northern Europe. Two questions dominated the course of events: the Anglo-German contest for control of the access to the Atlantic Ocean and the Soviet-German contest for control of their former territories as a precursor to the future Total War they expected to wage against each other. This anthology of 23 essays considers both these issues collectively and provides a new international perspective on the region's transition from the relative peace of the interwar era to the all-out war following the German invasion of the Soviet Union in 1941. Contributors are Azar Gat, Michael Epkenhans, Andrew Lambert, Tom Kristiansen, Rolf Hobson, Gunnar Selius, Jörg Hillmann, Werner Rahn, Sawomir Dobski, Ole Kristian Grimnes, Eslovas Laurinavičius, Alfred Erich Senn, Lars Ericson, Wolke, Karl Erik Haug, Boris Vadimovich Sokolov, Toomas Hiio, Magnus Ilmjörv, Palle Roslyng Jensen, Hans Christian Bjerg, Valteris Urbinskis, Michael H. Clemmesen, and Marcus Faulkner.

Managing Crises and De-Globalisation Sven-Olof Olsson, 2009-12-16. This book examines the effects of the Great Depression on the Nordic states in the interwar years, focusing on commercial and monetary policies but also important industries such as forestry, agriculture, and fishing.
