Perrett, 2016-01-25 This wide ranging introduction to classical Indian philosophy is philosophically rigorous without being too technical for beginners Through detailed explorations of the full range of Indian philosophical concerns including some metaphilosophical issues it provides readers with non Western perspectives on central areas of philosophy including epistemology logic metaphysics ethics philosophy of language and philosophy of religion Chapters are structured thematically with each including suggestions for further reading This provides readers with an informed overview whilst enabling them to focus on particular topics if needed Translated Sanskrit texts are accompanied by authorial explanations and contextualisations giving the reader an understanding of the argumentative context and philosophical style of Indian texts A detailed glossary and a guide to Sanskrit pronunciation equip readers with the tools needed for reading and understanding Sanskrit terms and names The book will be an essential resource for both beginners and advanced students of philosophy and Asian studies **Fires, Fire Engines, and Fire Brigades: with a history of manual and steam Fire Engines, etc** Charles Frederick T. Young, 1866 **Eastern Philosophy** Chakravarthi Ram-Prasad, 2013-01-31 A magisterial overview of the philosophies of the East The time has come for global philosophy to move beyond the model where the West is at the centre of radiating spokes of comparison Challenging the notion that Western philosophy is the best or only yardstick against which to judge the so called non Western philosophies Chakravarthi Ram Prasad sets up a lively debate in which the great thought systems of the East are engaged very much in their own terms The author's impressive sweep takes him through South Asia east to China and Japan encompassing 3000 years of philosophy and including the ancient philosophies of India Jainism Buddhism Daoism and Confucianism At the same time Ram Prasad dispels the romantic illusion

that there is some common mystical wisdom tradition that binds together the cultures of the East His aim is to give a sense of the diversity and depth of these philosophical cultures as well as their sophistication and originality and to make comparisons between them to illuminate their varied yet potentially universal appeal
