Kauffman,2019-03-19 How architectural drawings emerged as aesthetic objects promoted by a network of galleries collectors and institutions and how this changed the understanding of architecture Prior to the 1970s buildings were commonly understood to be the goal of architectural practice architectural drawings were seen simply as a means to an end But just as the boundaries of architecture itself were shifting at the end of the twentieth century the perception of architectural drawings was also shifting they began to be seen as autonomous objects outside the process of building In *Drawing on Architecture* Jordan Kauffman offers an account of how architectural drawings promoted by a network of galleries and collectors exhibitions and events emerged as aesthetic objects and ultimately attained status as important cultural and historical artifacts and how this was both emblematic of changes in architecture and a catalyst for these changes Kauffman traces moments of critical importance to the evolution of the perception of architectural drawings beginning with exhibitions that featured architectural drawings displayed in ways that did not elucidate buildings but treated them as meaningful objects in their own right When architectural drawings were seen as having intrinsic value they became collectible and Kauffman chronicles early collectors galleries and sales He discusses three key exhibitions at the Leo Castelli Gallery in New York other galleries around the world that specialized in architectural drawings the founding of architecture museums that understood and collected drawings as important cultural and historical artifacts and the effect of the new significance of architectural drawings on architecture and architectural history *Drawing on Architecture* interviews with more than forty people directly involved with the events described and on extensive archival research Kauffman shows how architectural drawings became the driving force in architectural debate in an era of change **Architecture and How to Sketch It** H.
