

Developing Effective "STUDY HABITS"

Successful students have learned how to study smarter, not harder. Effective approaches to share with student include:

Choose specific times to study
a routine helps mental preparation to study.

Set specific goals for each study period
this helps to stay focused so it is easy to evaluate progress

Stick to the plan
delaying a study session because of a difficult assignment is only procrastinating and can mean sloppy and rushed work later.

Tackle the difficult assignments first
when mental energies are highest.

Review class notes
before beginning an assignment to be sure all instructions are understood.

Ask for help
when it is needed sometimes a task related call to a classmate is all that is needed.

Take short breaks
during studying to refresh energy

Plan on reviewing
what has been covered in class to identify what subject matter is most important

Maintain a positive attitude
even if a subject seems difficult; shift priorities and spend a little more time in these areas.
