pragmatic Each chapter discusses a topical text set of YA novels in a conceptual framework how these novels contribute to or deconstruct conventional wisdom about key topics from identity formation to awareness of world issues while also providing a springboard in secondary and college classrooms for critical discussion of these novels Uncloaking many of the issues that have been essentially invisible in discussions of YA literature these essays can then guide the design of curriculum through which adolescent readers hone the necessary skills to unpack the ideologies embedded in YA narratives The annotated bibliography provides supplementary articles and books germane to all the issues discussed Closing End Points highlight and reinforce cross cutting themes throughout the book and tie the essays together *Bowker's Guide to Characters in Fiction* 2007 ,2008-02 Out of Sequence D. Gilson,2016-06-01 Out of Sequence The Sonnets Remixed brings together 154 remixes of William Shakespeare s 1609 sonnet sequence If Shakespeare the auteur and his sonnets have influenced so much of how we think and act as humans this collection asks how might we be un and redone by the conscious act of responding to or through these seventeenth century verses Here you will find a wide variety of remixes entries various by their form poems short essays comics songs and art and various by their remixer poets essayists artists musicians and scholars Here you will walk into a queer utopia a place where things and people touch though they are too often taught not to *Stories on Skin* Terry Baxter,Libby Coyner-Tsosie,2025-01-23 Helping expand archival studies into impermanent media like body art this book suggests that archiving must be considered a form of storytelling Tattoos are not merely decorative they contain deep meaning for individuals and communities They document their wearers personal histories and position in families or society and they engage with a communal understanding of symbols This unique book makes the case that archivists who want to preserve as full a human story as possible must recognize the rich documentation provided by tattoos It also argues in a broader sense that traditional archives are not representative of the ways human beings transmit information through time and that they must be augmented by other types of storytelling to provide a more complete record of our species Authors Baxter and Coyner touch on timely topics such as historical narratives storytelling cultural traditions the body as a text social control and memorialization by considering tattoos as a personal and community archive Discussing tattoos as a storytelling tool the authors also challenge how history is kept and who gets included Stories on Skin is committed to the rights of communities to tell their stories in their own way and to the power that right brings
