Ainley, 2002 When sea ice declines so does the population of Adelie penguins making this species a predictive indicator of the effects of global warming This book summarizes our present ecological knowledge of this species its biology behavior and ecology within the Antarctic ecosystem the ecological factors important to its life history and details of the mechanisms by which it is responding to climate change The narrative is complemented by richly written texts from the earliest Antarctic naturalists fine illustrations from the accomplished artist Lucia deLeiris and photographs by the author The Emperor's Embrace Jeffrey Masson, 2001-02-28 Jeffrey Moussaieff Masson's marvelous Jane Goodall New York Times bestseller *When Elephants Weep* made us re-evaluate the emotional lives of animals And in his follow-up New York Times bestseller *Dogs Never Lie About Love* Masson reflected with intelligence and originality Los Angeles Times Sunday Book Review on the emotional world of dogs Now in *The Emperor's Embrace* Masson offers a remarkable look at one of the most fulfilling roles in the animal world fatherhood With fascinating insight impeccable research and captivating writing controversial psychoanalyst Jeffrey Masson a new father himself introduces us to the world's best dads He takes us to such places as Antarctica as he explores how emperor penguin fathers incubate the eggs of their young by carrying them around on their feet for two months nestled beneath a special brood pouch And he tells us how once the babies hatch the fathers snuggle the babies on their feet until the mother returns from her time at sea feeding them a special milk-like substance until her arrival Masson a superb storyteller showcases the extraordinary behavior of outstanding fathers heroes among animals including the wolf and why wolves make good fathers and dogs don't the beaver who encourages his young to cling to his tail as he navigates through ponds the sea horse the only male animal that gives birth to its young the marmoset the South American monkey who carries his babies for the first two years of their lives wherever he goes Masson also examines nature's worst

fathers lions langurs bears and humans He shows that when a father does care for his young as with the beaver we immediately look for a biological and not an emotional explanation But Masson demonstrates that for these animals as with humans fatherhood is a profound all encompassing experience Groundbreaking compelling inspirational Masson s unique look at one of nature s most venerable institutions takes us to animal habitats around the world yet always returns to the heart For animal lovers fathers mothers sons and daughters everywhere The Emperor s Embrace is a book that will forever change our perceptions of parenthood and family love Applications Of Calculus To Biology And Medicine: Case Studies From Lake Victoria Nathan Ryan,Dorothy I Wallace,2017-08-17 Biology majors and pre health students at many colleges and universities are required to take a semester of calculus but rarely do such students see authentic applications of its techniques and concepts Applications of Calculus to Biology and Medicine Case Studies from Lake Victoria is designed to address this issue it prepares students to engage with the research literature in the mathematical modeling of biological systems assuming they have had only one semester of calculus The text includes projects problems and exercises the projects ask the students to engage with the research literature problems ask the students to extend their understanding of the materials and exercises ask the students to check their understanding as they read the text Students who successfully work their way through the text will be able to engage in a meaningful way with the research literature to the point that they would be able to make genuine contributions to the literature **Encyclopedia of the Antarctic** Beau Riffenburgh,2007 Publisher description *Antarctic Bibliography* Stuart G.
