Over the course of the decade a stable of talented painters comic book artists and designers produced thousands of the most eye catching book covers to ever grace bookstore shelves or spinner racks Curiously the pieces commissioned for these covers often had very little to do with the contents of the books they were selling but by leaning heavily on psychedelic imagery far out landscapes and trippy surrealism the art was able to satisfy the same space race fueled appetite for the big ideas and brave new worlds that sci fi writers were boldly pushing forward In Worlds Beyond Time Sci Fi Art of the 1970s Adam Rowe who has been curating championing and resurrecting the best and most obscure art that 1970s sci fi has to offer on his blog 70s Sci Fi Art introduces readers to the biggest names in the genre including Chris Foss Peter Elson Tim White Jack Gaughan and Virgil Finlay as well as their influences With deep dives into the subject matter that commonly appeared on these covers spaceships alien landscapes fantasy realms cryptozoology and heavy machinery this book is a loving tribute to a unique and robust art form whose legacy lives on both in nostalgic appreciation as well as the retro chic design of mainstream sci fi films such as Guardians of the Galaxy Alien Covenant and Thor Ragnarok Includes Color Illustrations
