Women and Slavery in

Nineteenth-century Colonial Cuba Sarah L. Franklin, 2012 Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World yet gendered analysis of Cuba has lagged behind study of other regions Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race gender and legal status Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population the maintenance of order required a patriarchy that placed both women and slaves among the lower ranks Based on a variety of archival and printed primary sources this book examines how patriarchy functioned outside the confines of the family unit by scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Publisher s description *Slave Society in Cuba During the Nineteenth Century; 2nd Pr* Franklin W. The World of Sugar Ulbe Bosma, 2023-05-09 A tour de force of global history Bosma has turned the humble sugar crystal into a mighty prism for understanding aspects of global history and the world in which we live Los Angeles Review of Books The definitive 2 500 year history of sugar and its human costs from its little known origins as a luxury good in Asia to worldwide environmental devastation and the obesity pandemic For most of history humans did without refined sugar After all it serves no necessary purpose in our diets and extracting it from plants takes hard work and ingenuity Granulated sugar was first produced in India around the sixth century BC yet for almost 2 500 years afterward sugar remained marginal in the diets of most people Then suddenly it was everywhere How did sugar find its way into almost all the food we eat fostering illness and ecological crisis along the way The World of Sugar begins with the earliest evidence of sugar production Through the Middle

Ages traders brought small quantities of the precious white crystals to rajahs emperors and caliphs But after sugar crossed the Mediterranean to Europe where cane could not be cultivated demand spawned a brutal quest for supply European cravings were satisfied by enslaved labor two thirds of the 12.5 million Africans taken across the Atlantic were destined for sugar plantations By the twentieth century sugar was a major source of calories in diets across Europe and North America Sugar transformed life on every continent creating and destroying whole cultures through industrialization labor migration and changes in diet Sugar made fortunes corrupted governments and shaped the policies of technocrats And it provoked freedom cries that rang with world changing consequences In Ulbe Bosma's definitive telling to understand sugar's past is to glimpse the origins of our own world of corn syrup and ethanol and begin to see the threat that a not so simple commodity poses to our bodies our environment and our communities
