## **Slavophiles And Commissars:**

**Slavophiles and Commissars: Ideas. 1. The Intelligentsia and the Nationalist Revival. 2. Neo-Fascism. 3. Russian Orthodoxy and Nationalism** Judith Devlin, 1999      *Slavophiles and Commissars* J. Devlin, 1999-05-17 This book examines contemporary Russian nationalism as it reemerged in the wake of Gorbachev's liberalisation. The book argues that the new nationalism provided opponents of reform with an apparently novel justification for their hostility to the liberalisation inaugurated by Gorbachev and erratically pursued by Yeltsin.      *Historical Memory of Central and East European Communism* Agnieszka Mrozik, Stanislav Holubec, 2018-03-19 Every political movement creates its own historical memory. The communist movement though originally oriented towards the future was no exception. The theory of human history constitutes a substantial part of Karl Marx's and Friedrich Engels's writings and the movement inspired by them very soon developed its own strong historical identity combining the Marxist theory of history with the movement's victorious milestones such as the October Revolution and later the Great Patriotic War which served as communist legitimization myths throughout almost the entire twentieth century. During the Stalinist period however the movement's history became strongly reinterpreted to suit Joseph Stalin's political goals. After 1956 this reinterpretation lost most of its legitimating power and instead began to be a burden. The unwanted memory of Stalinism and subsequent examples of violence: the Gulag, Katy the 1956 Budapest uprising and the 1968 Prague Spring contributed to the crisis of Eastern European state socialism in the late 1980s and led to attempts at reformulating or even rejecting communist self identity. This book's first section analyzes the post 1989 memory of communism and state socialism and the self identity of the Eastern and Western European left. The second section examines the state socialist and post socialist memorial landscapes in the former German Democratic Republic, Czechoslovakia, Czech Republic, Poland, Lithuania, Ukraine and Russia. The final section concentrates on the narratives the movement established when in power about its own past with the examples of the Soviet Union, Poland, Romania and Czechoslovakia.      *The Fiction of History* Alexander Lyon Macfie, 2014-08-13 *The Fiction of History* sets out a number of themes in the relationship between history and fiction, emphasising the tensions and dilemmas created in this relationship and examining how various writers have dealt with these. In the first part two chapters discuss the philosophy behind the connection between fiction and history: whether history is fiction and the distinction between the past and history. Part two goes on to discuss the relationship between history and literature using case studies such as Virginia Woolf and Charles Dickens. Part three looks at television and film as well as other media through case studies such as the film *Welcome to Sarajevo* and Soviet and Australian films. Part four considers a particular theme that has prominence in both history and literature: postcolonial studies focusing on the issues of fictions of nationhood and civilization and the historical novel in postcolonial contexts. Finally the fifth section comprises two interviews with novelists Penelope Lively and Adam Thorpe and discusses the ways in which their works explore the nature of history itself.      **Alexander Solzhenitsyn: Cold War Icon,**

**Gulag Author, Russian Nationalist?** Elisa Kriza, 2014-10-01      *Languages of Islam and Christianity in Post-Soviet Russia*

Gulnaz Sibgatullina, 2020-06-08 In her book Gulnaz Sibgatullina examines the intricate relationship of religion identity and language related beliefs against the background of socio political changes in post Soviet Russia Focusing on the Russian and Tatar languages she explores how they simultaneously serve the needs of both Muslims and Christians living in the country today Mapping linguistic strategies of missionaries converts and religious authorities Sibgatullina demonstrates how sacred vocabulary in each of the languages is being contested by a variety of social actors often with competing agendas These linguistic collisions not only affect meanings of the religious lexicon in Tatar and Russian but also drive a gradual convergence of Russia s Islam and Christianity

**Russian Society and the Orthodox Church** Zoe Knox, 2004-06-02

Russian Society and the Orthodox Church examines the Russian Orthodox Church s social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society

Intellectuals and Apparatchiks Kevin O'Connor, 2008-08-01 This book traces the origins and activities of an alliance of conservative Communist Party authorities and Russian nationalists during the late Soviet era Specifically it examines how and to what extent hitherto orthodox Communists sought political allies in the Russian nationalist movement in order to garner support for halting the reform program and saving the Soviet state from collapse

**History as Therapy: Alternative History and Nationalist Imaginings in Russia** Konstantin Sheiko, Stephen Brown, 2014-05-01 This astonishing book explores the delusional imaginings of Russia s past by the pseudo scientific Alternative History movement Despite the chaotic collapse of two empires in the last century Russia s glorious imperial past continues to inspire millions The lively movement of Alternative History diligently re writing Russia s past and rediscovering its hidden greatness has been growing dramatically since the collapse of Communism in 1991 Virtually unknown in the West these pseudo historians have published best selling books attracted widespread media attention and are a prominent voice in Internet discussions about Russian and world history Alternative History claims that Russia is much older than Ancient Egypt Greece and Rome that the medieval Mongol Empire was in fact a Slav Turk world empire and that in the twentieth century duplicitous foreign powers stabbed Russia in the back and stole its empire For its followers the key to Russia s greatness in the future lies in ensuring that Russians understand the true wealth of their past Alternative history has become a popular therapy for Russians still coming to terms with the reality of Post Soviet life It is one of the forces shaping a new Russian nationalism and an important factor in the geopolitics of the twenty first century
