Ciao, Carpaccio!: An Infatuation Jan Morris,2014-11-03

Jan Morris returns to Venice in this loving tribute to one of the great Renaissance masters In the course of writing Venice her 1961 classic Jan Morris became fascinated by the historical presence of a sometimes overlooked Venetian painter Nowadays the name of Vittore Carpaccio 1460 1520 suggests raw beef but to Morris it conveyed far more profound meanings Thus began a lifelong infatuation reaching across the centuries between a renowned Welsh writer and a great and delightfully entertaining artist of the early Renaissance Handsomely designed with more than seventy photographs throughout Ciao Carpaccio is a happy caprice of affection In illuminating the life of the artist and his paintings Morris throws in digressions about Venetian animals courtesans babies ships architecture and history and caps it all with thoughtful analyses of Carpaccio s spiritual convictions Part biography part art interpretation part personal odyssey and all lots of fun Ciao Carpaccio will no doubt help to rescue the name of a noble artist from its popular interpretation as an item of cuisine

Handbook on the Economics of Professional Football John Goddard,Peter Sloane,2014-11-28 In this comprehensive Handbook John Goddard and Peter Sloane present a collection of analytical contributions by internationally regarded scholars in the field which extensively examine the many economic challenges facing the world s most popular *The Palgrave Handbook on the Economics of Manipulation in Sport* Markus Breuer,David Forrest,2018-04-12 Sport has enjoyed steadily increasing prominence and economic importance since the Millennium But threats to its integrity appear to have grown in parallel undermining the very sense of innocence and fun which is an important part of its appeal Threats to the spirit of sport come from internal external and even state actors who seek either to manipulate events on the field or to exploit the institutions of sport for their own ends As the reputation of sport becomes more tarnished as a result its sustainability as a significant part of the entertainment industry is called into question and loss of reputation may even result in decline in recreational play In this wide ranging collection of essays the international team of contributors explores the structural economic sources of the problems that beset sport and address the question of what is to be done through

economic reasoning Specific topics covered include doping match fixing for betting or sporting gain the role of forensic statistics in detecting nefarious activity issues related to club ownership corruption in the awarding of mega events and within sports governing bodies and the role of the law and the Court of Arbitration for Sport In the final chapter the Editors pull together the various strands and propose that policy to mitigate the threat to fair play should be built around two themes improving sports governance and designing incentives to help actors in sport choose honest over manipulative behaviour The book will appeal to practitioners from sport management as well as to academics including students and researchers
