Victor M. Corman

The Harvest Of Sorrow Soviet Collectivization And The Terror Famine:

The Harvest of Sorrow Robert Conquest, 1986 Chronicles the events of 1929 to 1933 in the Ukraine when Stalin's Soviet Communist Party killed or deported millions of peasants abolished privately held land and forced the remaining peasantry into collective farms and inflicted impossible grain quotas on the peasants that resulted in mass starvation [The harvest of sorrow: Soviet collectivization and the terror-famine](#) Robert Conquest, 1982 [Harvest Of Sorrow](#) Robert Conquest, 2018-12-25 Robert Conquest's *The Harvest of Sorrow* helped to reveal to the West the true and staggering human cost of the Soviet regime in its deliberate starvation of millions of peasants and remains one of the most important works of Soviet history ever written More deaths resulted from the actions described in this book than from the whole of the First World War Epic in scope and rich in detail *The Harvest of Sorrow* describes how millions of peasants in the USSR were dispossessed and deported as a result of the abolition of private property and how millions in the newly established collective farms of the Ukraine and other regions were then deliberately starved to death through impossibly high quotas the removal of all other sources of food and their isolation from outside help With the publication of this and his earlier book *The Great Terror* which revealed the truth about Stalin's political purges Robert Conquest revealed to the West the staggering human cost of the Soviet regime [The Harvest of Sorrow](#) Robert Conquest, Canadian Institute of Ukrainian Studies, 1986 [The Harvest of Sorrow](#) Robert Conquest, 1988 [Atrocity Labelling](#) Markus P. Beham, 2022-11-03 *Atrocity Genocide War crime Crime Against Humanity* Such atrocity labels have been popularized among international lawmakers but with little insight offered into how and when these terms are applied and to what effect What constitutes an event to be termed a genocide or war crime and what role does this play in the application of legal proceedings Markus P Beham through an interdisciplinary and comparative approach unpicks these terms to uncover their historical genesis and their implications for international criminal law initiatives concerned with atrocity The book uniquely compares four specific case studies Belgian colonial exploitation of the Congo atrocities committed against the Herero and Nama in German South West Africa the Armenian genocide and the man made Ukrainian famine of the 1930s Encompassing international law legal history and discourse analysis the concept of atrocity labelling is used to capture the meaning underlying the work of international lawyers and prosecutors historians and sociologists agenda setters and policy makers **The Holocaust/Genocide Template in Eastern Europe** Ljiljana Radonić, 2020-05-21 *The Holocaust Genocide Template in Eastern Europe* discusses the memory wars in the course of the post Communist re narration of history since 1989 and the current authoritarian backlash The book focuses specifically on how mnemonic warriors employ the Holocaust template and the concept of genocide in tendentious ways to justify radical policies and externalize the culpability for their international isolation and worsening social and economic circumstances domestically The chapters analyze three dimensions 1 the competing narratives of the universalization of the Holocaust as the negative icon of our era on the one hand and the double genocide paradigm on the

other which focuses on our own national suffering under allegedly equally evil Nazism and Communism 2 the juxtaposition of post Communist Eastern Europe and Russia reflected primarily in the struggle of the Baltic states and Ukraine to challenge Russian propaganda a struggle that runs the risk of employing similarly distorting and propagandistic tropes and 3 the post Yugoslav rhetoric portraying one s own group as the new Jews and one s opponents in the wars of the 1990s as akin to Nazis Surveying major battle sites in this memory war memorial museums monuments film and the war over definitions and terminology in relevant public discourse The Holocaust Genocide Template in Eastern Europe will be of great interest to scholars of genocide the Holocaust historical memory and revisionism and Eastern European Politics This book was originally published as a special issue of the Journal of Genocide Research [The 'Second World' in Contemporary British Writing](#) Katrin Berndt,Andrew Wells,2024-08-12 The thirteen contributions to this collection all explore or exemplify the ongoing British interest in the socialist world before 1990 In autobiography fiction film history and lexicography these chapters show how contemporary Britain is engaging with the past project to build socialism in Europe and what this means for the present and the future of our continent Contributions come from a wide range of disciplinary and geographical backgrounds and the volume is further enriched by a short story especially written for this book and by an in depth interview with the author of a recent popular history of the GDR Together these chapters offer a unique perspective into contemporary British writing on the second world and the enduring fascination with the failures of futures past **Stalin** Marty Bloomberg,Buckley Barry Barrett,1993-01-01 A comprehensive annotated survey of English language literature on Stalin *Food in World History* Jeffrey M. Pilcher,2023-06-15 Now in its third edition Food in World History explores culinary cultures and food politics throughout the world from ancient times to the present day with expanded discussions of industrialization indigeneity colonialism gender environment and food and power It examines the long history of globalization of foods as well as the political social and environmental implications of our changing relationship with food showing how hunger and taste have been driving forces in human history Including numerous case studies from diverse societies and periods such as Maya and Inca cuisines and peasant agriculture in the early modern era Food in World History explores such questions as What social factors have historically influenced culinary globalization How did early modern plantations establish patterns for modern industrial food production How will the climate crisis affect food production and culinary cultures Did Italian and Chinese migrant cooks sacrifice authenticity to gain social acceptance in the Americas Have genetically modified foods fulfilled the promises made by proponents With the inclusion of more global examples this comprehensive survey is an ideal resource for all students who study food history or food studies
