*The Health Promoting School*, 2004 *The Health Promoting School* Bjarne Bruun Jensen, Stephen Clift, 2005-12-31 This book brings together recent international scholarship on the links between education and health and recent research evidence evaluating the processes and outcomes of health promoting schools initiatives The book arises out of the Education and Health in Partnership conference which took place in Egmond aan Zee the Netherlands in September 2002 The key aims of the conference were to focus on effective partnership working for health in schools and to consider the evidence base for health promoting schools programmes A significant outcome of the conference was the Egmond Agenda which outlines the principal components for success in establishing health promoting schools Contributors from across Europe the United States South Africa and Australia present findings from national health

promoting school projects with a particular emphasis on the promotion of mental health The volume will be of interest to all education and health professionals interested in the contributions of schools in promoting health empowerment action competence and wellbeing of young people

**Handbook of Settings-Based Health Promotion** Sami Kokko,Michelle Baybutt,2022-05-05 This book s central focus is to provide academics students policy makers and practitioners with a unique insight into a wide variety of perspectives on settings based health promotion It offers clarity amidst different interpretations and ideological understandings of what applying a settings based approach means Emphasis is given to a salutogenic focus exploring how the creation of wellbeing and fostering of potential in settings to best enable individuals and populations to flourish implies that the setting itself must be the entry point for health promotion Building on this the text explores how the settings approach to health promotion strives for changes in the structure and ethos of the setting detailing how changes and developments in people s health and health behavior are easier to achieve if health promoters focus on settings rather than solely on individuals The book comprises 15 chapters organized in three sections In Part I Evolution Foundations and Key Principles of the Settings Based Approach the first four chapters present the determinants theoretical basis and generic commonalities that are consistent over various settings initiatives and formulate the grounds for the settings based health promotion approach In Part II Applying the Settings Based Approach to Key Settings Chapters 5 13 introduce the key settings initiatives both traditional and non traditional new and contemporary with their developments and specific features In Part III Gaia The Ultimate Setting for Health Promotion the last two chapters consider the settings approach in the context of future challenges and explore possible directions for further development Handbook of Settings Based Health Promotion has novel information and perspectives on the topic that provide readers with up to date specialist knowledge and application of global developments to develop and enhance a common understanding and generate new thinking in relation to contemporary settings This timely tome will engage the academic community in the fields of health promotion and public health including students teaching staff and researchers Additionally it is a useful resource for policy makers and practitioners in these fields

*Health Promotion* Jackie Green,Keith Tones,2010-03-03 Beginning with a critical appraisal of the concept itself the second edition of Health Promotion Planning and Strategies outlines models for defining health promotion and sets out the factors involved in planning health promotion programmes that work Locating the principles and strategies of health promotion within an emerging sphere of multidisciplinary health the authors show how these can be applied within a range of contexts and settings In an attempt to bridge the gap that persists between ideological perspectives and practical implementations they delve beyond the rhetoric of empowerment and show how it can be incorporated into practice Focusing particularly on the synergistic relationship between policy and education the book re appraises the notion of health education an idea which has become marginalised in recent years and shows the fundamental importance of education in creating individual choice and generating effective advocacy for social change The question of evidence is

central to the text and the book examines methods of evaluation and the role it plays in creating more effective health promotion programmes The new edition offers coverage of values and ethics working with communities the settings approach and social marketing It also provides students with a glossary of key terms Internationally relevant and multidisciplinary this is an essential text for students of health studies health promotion public health interprofessional social care courses and all healthcare professionals
