The Failure Of Educational Reform In Canada:

The Failure of Educational Reform in Canada Douglas Myers,1973 During the last decade education seemed to permeate all other social and political issues It was a major growth industry became the largest single budget item in the public sector and like ecology and women s lib today was connected to virtually the whole social structure If we think of the educational system as a room in a house we have just emerged from a period during which we filled that room with an assortment of interesting and expensive pieces of furniture and accessories and spent a lot of time and energy moving them about Without really altering the structure of the room we have redecorated it several times and have even built on one or two additions to it But we have tended to ignore the state of the house itself and the necessary connections between its structure and that of the room This collection of articles reprinted from The Canadian Forum conveys something of the current atmosphere of disenchantment and scepticism Education no longer seems to be the answer for every problem modern society faces Indeed the school system has come under increasing attack as being a major force in perpetuating those very inequities which it was supposed to eliminate Though far from being a complete inventory of the state of Canadian education these articles raise a number of important issues which those concerned with public education cannot afford to ignore if education is to be even in a limited way an effective instrument of social reform

Failure of Corporate School Reform Kenneth J. Saltman, 2015-11-17 Corporate school reforms especially privatization union busting and high stakes testing have been hailed as the last best hope for public education Yet as Kenneth Saltman powerfully argues in this new book corporate school reforms have decisively failed to deliver on what their proponents have promised for two decades higher test scores and lower costs As Saltman illustrates the failures of corporate school reform are far greater and more destructive than they seem Left unchecked corporate school reform fails to challenge and in fact worsens the most pressing problems facing public schooling including radical funding inequalities racial segregation and anti intellectualism But it is not too late for change Against both corporate school reformers and its liberal critics this book argues for the expansion of democratic pedagogies and a new common school movement that will lead to broader social renewal
