The Hawke Memoirs:

The Hawke Memoirs Bob Hawke, 1994 *Memoirs* Brian Mulroney, 2011-07-27 Politics was always Brian Mulroney's real love. As an undergraduate in Nova Scotia, he amazed his friends by getting Prime Minister Diefenbaker on the phone, and he rose fast in the Tory ranks in Quebec as a young Montreal lawyer. He tried for the leadership of the party in 1976, losing to Joe Clark, then returned to win a rematch in 1983. The next year he ran the most successful election campaign in Canadian history, winning 211 seats and taking office in September 1984. His first term in office was a stormy one, marked by the launch of the Meech Lake Accord and the Free Trade Agreement with the United States. In 1988, however, he was re-elected after a rollercoaster campaign, and his second term in office was just as controversial, featuring the Meech Lake and Charlottetown Accords, still a source of bitter regret for him as opportunities missed. This book falls into two main sections: first, his rise out of a working-class family in Baie Comeau; second, his immersion into the world of Ottawa politics, in opposition and then in power. The years in power are dealt with in fascinating detail, and we receive his candid accounts of backstage dealings with Trudeau, Clark, and other Canadian leaders, and on the international scene with Reagan, Thatcher, Mitterrand, Kohl, Gorbachev, Mandela, Clinton, and many more. This big book has a huge cast of major players. Brian Mulroney is determined to make this the best prime minister's memoirs this country has ever seen, and a full-time researcher has been helping him for three years. This account of his career is colourful and forthright, and a number of opponents will be sorry that they caught his attention. The manuscript is full of personal touches and reflects the fact that he wrote it by hand, reading it aloud for rhythm and impact. Studded with entries from his private journal, this book by a son, brother, husband, and father is deeply personal and includes some surprisingly frank admissions. The book establishes the scale of his achievements and reveals him as a man of great charm. Memoirs will allow that little-known Brian Mulroney to engage directly with the reader. This book is full of surprises, as we fall under the spell of a great storyteller. *Hawke Memoirs* Rambo Books, 1998-06 *Australia 1901 - 2001* Andrew Tink, 2014-11-01 Andrew Tink's superb book tells the story of Australia in the twentieth century, from Federation to the Sydney 2000 Olympics. A century marked by the trauma of war and the despair of the depression, balanced by extraordinary achievements in sport, science, and the arts. A country underpinned by a political system that worked most of the time, and the emergence of a mainly harmonious society. Australians at the start of the century could hardly have imagined the prosperity enjoyed by their diverse countrymen and women one hundred years later. Tink's story is driven by people, whether they be prime ministers, soldiers, shopkeepers, singers, footballers, or farmers, a mix of men and women, Australian-born immigrants and Aborigines. He brings the decades to life, writing with empathy, humour, and insight to create a narrative that is as entertaining as it is illuminating. *Let My People Go* Sam Lipski, Suzanne D. Rutland, 2018-11-01 For 50 years, until the Berlin Wall fell in 1989, the Soviet Union ran a campaign of repression, imprisonment, political trials, and terror against its 3 million Jews. In Australia, political leaders and the Jewish community contributed significantly to the

international protest movement which eventually triumphed over Moscow's tyranny and led to the modern Exodus of Soviet Jews to Israel and other countries Lipski and Rutland make this largely unknown Australian story come alive with a combination of passion personal experience and ground breaking research The struggle for the freedom of Soviet Jewry was one of the most powerful displays of strength and solidarity by the world Jewish community even those intimately familiar with the struggle will be surprised to discover in *Let My People Go* how the Australian Jewish community and its leaders were among the campaign's initiators and how they saw it through to its successful conclusion This is a unique testament to how a small group can play a big role in history Natan Sharansky Chairman Jewish Agency for Israel Prisoner of Zion 1977

86 Commonwealth History in the Twenty-First Century Saul Dubow, Richard Drayton, 2020-07-05 This edited collection draws together new historical writing on the Commonwealth It features the work of younger scholars as well as established academics and highlights themes such as law and sovereignty republicanism and the monarchy French engagement with the Commonwealth the anti apartheid struggle race and immigration memory and commemoration and banking The volume focusses less on the Commonwealth as an institution than on the relevance and meaning of the Commonwealth to its member countries and peoples By adopting oblique de-centred approaches to Commonwealth history unusual or overlooked connections are brought to the fore while old problems are looked at from fresh vantage points be this turning points like the relationship between old and new Commonwealth members from 1949 or the distinctive roles of major figures like Jawaharlal Nehru or Jan Smuts The volume thereby aims to refresh interest in Commonwealth history as a field of comparative international history

Power Of Speech James Curran, 2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia's relationships with its Asian neighbours the dispossession of indigenous Australians and the nation's involvement in war In recent years our political leaders have played a conspicuous role in the controversy In *The Power of Speech* James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders' beliefs about Australia

The Routledge Handbook of the Global 1980s Jonathan Davis, 2025-08-18 The 1980s was a decade of enormous global change Upheaval from the top of governments to the bottom of societies saw a new world order begin to emerge A new form of capitalism redefined global economics on both the right and left as market forces were unleashed The ideological conflict of the previous four decades petered out as superpower relations improved A more interconnected world introduced new

consumer products and forms of popular culture to societies across the globe And protest movements saw new battles fought and new alliances forged in an increasingly interdependent world The Routledge Handbook of the Global 1980s brings together specialists from across the world to examine how the decade was shaped by these changes to politics economics culture societies and protest movements The Handbook is divided into five parts focusing on the global environment globalisation and neoliberalism politics and society culture and society and the closing stages of the global Cold War By taking an international approach to the history of the 1980s this book offers a wide ranging and important new perspective of this hugely transformative decade It will appeal to students and scholars alike as well as all those interested in the political social economic and cultural shifts of the 1980s

The Prime Ministers' Craft Patrick Moray Weller, 2018 This volume examines how prime ministers work and the means by which they choose to run their governments and compares four parliamentary systems Australia Canada New Zealand and the United Kingdom over the past 40 years

Making Public Policy Decisions Damon Alexander, Jenny Lewis, 2014-12-05 To understand public policy decisions it is imperative to understand the capacities of the individual actors who are making them how they think and feel about their role and what drives and motivates them However the current literature takes little account of this preferring instead to frame the decisions as the outcomes of a rational search for value maximising alternatives or the result of systematic and well ordered institutional and organisational processes Yet understanding how personal and emotional factors interact with broader institutional and organisational influences to shape the deliberations and behaviour of politicians and bureaucrats is paramount if we are to construct a more useful nuanced and dynamic picture of government decision making This book draws on a variety of approaches to examine individuals working in contemporary government from freshly trained policy officers to former cabinet ministers and prime ministers It provides important new insights into how those in government navigate their way through complex issues and decisions based on developed expertise that fuses formal rational techniques with other learned behaviours memories emotions and practiced forms of judgment at an individual level This innovative collection from leading academics across Australia Europe the United Kingdom and North America will be of great interest to researchers educators advanced students and practitioners working in the fields of political science public management and administration and public policy
