Tattoo My Heart Fitz Carter,2020-12-21 It is easy to think about our hearts when feeling short winded or trying to catch our breath According to the Mayo Clinic a normal resting heart rate is approximately 60 to 100 beats per minute When postured in a resting position we often do not think about our hearts and how vital it is to the entire body But even when we are sleeping our physical hearts are ensuring that the body heals as its organs are kept functioning The heart is also the primary agent wherein the spiritual essence of who we are resides and from it flows our thoughts behaviors and speech Thus the heart is the catalyst that cradles the human spirit making it the main reason why God seeks a relationship with the heart of mankind The Lord's desire is to write His covenants on the tablets of our hearts and to create a hunger for godliness in our

spirits These short devotionals are designed to challenge our spirits to focus on the heart of God as He longs for the heart of man In this hectic world they are a brief pause of meditation and reflection to examine how God s heart responds in real time situations May your spirit be renewed to a deepening awareness of the attributes of God as He reminds us that it is what s between our arms that matters most You may have tattooed your arm hand leg or neck But I pray that this book will challenge you to allow God to inscribe to tattoo on a place where no one can see yet all the world will view Prison Tattoos Douglas Kent Hall,1997-03-15 In prison the tattoo stakes a claim to individuality In Prison Tattoos Douglas Hall Kent uses his camera as a sociologist s tool photographing inmates from America s prisons whose tattoos professionally done and homemade indelibly imprint on their bodies what these men desire in their souls autonomy and identity Includes 80 pages of photos and a page of temporary tattoos Probing the Skin Dirk Vanderbeke,Caroline Rosenthal,2015-02-05 Adopting an interdisciplinary approach this volume explores representations of skin in literature art art history visual media and medicine and its history The essays collected here probe the symbolic potential of skin as a shifting sign in various historical and cultural contexts and also examine the material and organic properties of the body s largest organ They deal with skin as a sensual organ as an interface or contact zone as the visual marker of identity and as a lieu de memoire in different periods and media In its material characteristics skin is regarded as a medium a canvas a surface and an object of both artistic and medical investigations The contributions investigate representations of skin in sculpture painting film and fictional as well as non fictional texts from the 16th century to the present The topics addressed here include the problematic representation of racial identity via skin colour in various media the sensual qualities of the skin such as smell or taste the form and function of tattoos as markers of personal as well as collective identity and scars as signifiers of personal pain and collective suffering
