Sketches Paintings From Mexico:

Mexican Painting and Painters Robert Henry Lamborn, 1891 Mexican Painting and Painters Robert Henry Lamborn, 2015-06-17 Excerpt from Mexican Painting and Painters A Brief Sketch of the Development of the Spanish School of Painting in Mexico During the years 1881 and 1883 I passed some seven months in and near the City of Mexico and there secured often from strange hiding places where they had rested since the secularization of the conventual establishments about eighty paintings by known and unknown colonial artists Aware that a vast I might almost say a superabundant literature treating of painters and paintings existed in our Northern capitals and engrossed by the novel aspect of nature around me I delayed examining my acquisitions historically until I should again be near the systematized accumulations of records of the several studious nations This delay continued until when invited by the trustees to place my collection where it might subserve a useful end in Memorial Hall Philadelphia I turned to the great centres of eastern American thought seeking knowledge relating to the fine arts in New Spain Many thousands of volumes were rapidly sifted by means of catalogues indexes and the references of learned authors and to my surprise the search secured but a limited number of isolated facts These were placed in some order of sequence and assembled with others drawn from memory or gathered and recorded in note books during my Mexican sojourn About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Paintings, Drawings, Prints by Mexican Artists and by Pablo Picasso Fogg Art Museum, Justino Fernández, 1942 *María Izquierdo and Frida Kahlo* Nancy Deffebach, 2015-08-15 María Izquierdo 1902 1955 and Frida Kahlo 1907 1954 were the first two Mexican women artists to achieve international recognition During the height of the Mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of Mexican modernism Although the iconic Kahlo is now more famous the two artists had comparable reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist's oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with

masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art *Art and Architecture in Mexico* James Oles, 2013-09-10 A lucid at times even poetic summary of five hundred years of Mexican art The illustrated works of art are well chosen and beautifully integrated into Oles's text Indeed it feels as if his words emanate from the art itself Donna Pierce Denver Art Museum This new interpretive history of Mexican art from the Spanish Conquest to the early decades of the twenty first century is the most comprehensive introduction to the subject in fifty years James Oles ranges widely across media and genres offering new readings of painting sculpture architecture prints and photographs He interprets major works by such famous artists as Diego Rivera and Frida Kahlo but also discusses less familiar figures in history and landscape painting muralism and conceptual art The story of Mexican art is set in its rich historical context by the book's treatment of political and social change The author draws on recent scholarship to examine crucial issues of race class and gender including the work of indigenous artists during the colonial period and of women artists in the nineteenth and twentieth centuries Throughout Oles shows how Mexican artists participated in local and international developments He considers both native and foreign born artists from Baroque architects to kinetic sculptors and highlights the important role played by Mexicans in the global art scene of the last five centuries The Covarrubias Circle Peter Mears, 2004 New York in the 1920s and 1930s was a modernist mecca that drew artists writers and other creators of culture from around the globe Two such expatriates were Mexican artist and Renaissance man Miguel Covarrubias and Hungarian photographer Nickolas Muray Their lifelong friendship gave Muray an entrance into Covarrubias's circle of fellow Mexican artists Frida Kahlo Rufino Tamayo Juan Soriano Fernando Castillo Guillermo Meza Roberto Montenegro and Rafael Navarro whose works Muray collected This outstanding body of Mexican modernist art now owned by the Harry Ransom Humanities Research Center HRC at the University of Texas at Austin forms the subject of this beautifully illustrated volume Produced in conjunction with the Ransom Center's exhibition Miguel Covarrubias A Certain Clairvoyance this volume contains color plates of virtually all the items in Nickolas Muray's collection of twentieth century Mexican art The majority of the works are by Covarrubias while the excellent works by the other artists reflect the range of aesthetic shifts and modernist influences of the period in Mexico Accompanying the plates are five original essays that establish Covarrubias's importance as a modernist impresario as influential in his sphere as Ezra Pound T S Eliot and Jean Cocteau were in theirs Likewise the essays reestablish the significance of Nickolas Muray whose success as a master of color photography portraiture advertising imagery and commercial illustration has made him difficult to place within the history of photography as a fine art As a whole this publication of the Nickolas Muray Collection vividly illustrates the transgression of generic boundaries and the cross fertilization among artists working in different media from

painting and photography to dance and ethnography that gave modernism its freshness and energy It also demonstrates that American modernism was thoroughly infused with a fervor for all things Mexican of which Covarrubias was a principal proponent and that Mexican modernists no less than their American and European counterparts answered Pound's call to make it new
