Skidmore Owings And Merrill Llp:

Skidmore, Owings & Merrill LLP Andy Whyte, Skidmore, Owings & Merrill, 2000 One of the largest and most prestigious architectural firms in the world Skidmore Owings Merrill SOM has set the standard for American corporate design for over half a century A building by SOM is a product of a precise fit between client and architect *SOM Evolutions* Abby Bussel, Owings and Merrill LLP Skidmore, 2000 Skidmore Owings Merrill have been practising architecture for more than sixty years and are amongst the most well known architectural firms worldwide with offices in Chicago New York San Francisco Hong Kong and London They first attracted attention in the 1950s when they created notable corporate buildings such as Lever House in New York and went on to gain acclaim with their engineering achievements The technology developed by SOM made buildings such as Sears Tower in Chicago possible for many years the highest building in the world This volume presents a selection of those recent projects which are of a particularly high aesthetic and technical standard Amongst the projects included are International Terminal at San Francisco International Airport Jin Mao Building in Shanghai Hong Kong Convention Center Industrial and Commercial Bank of China in Beijing and Changi Airport in Singapore

Skidmore, Owings & Merrill Skidmore, Owings & Merrill, 1997 Gordon Bunshaft and SOM Nicholas Adams, 2019-10-11 This nuanced portrait of Gordon Bunshaft and his work for the architecture firm SOM explores his role in defining the built aesthetic of corporate America *SOM*, 2008 **Daylighting Design** Mohamed Boubekri, 2014-09-25 For thousands of years people have aligned their homes with the sun This tendency decreased with the availability of artificial light Yet due to the health effects of artificial light as well as rising energy costs the issue of designing with daylight is of great importance again today The primary objective of daylight systems is to make maximum use of daylight for certain building types and climates The book documents the various dimensions of the optimum use of daylight with particular reference to window orientation light distribution and prism technology and discusses the health and economic related aspects In the final chapter existing design concepts are documented in detail including the expansion of the Art Institute of Chicago Museum in the United States by Renzo Piano Building Workshop Terminal 3 of the Changi Airport in Singapore by Skidmore Owings Merrill and the Clever House in Germany by Behnisch Architekten **About Star Architecture** Nadia Alaily-Mattar, Davide Ponzini, Alain Thierstein, 2020-03-16 Cities across the world have been resorting to star architects to brand their projects spark urban regeneration and market the city image internationally This book shifts the attention from star architects to star architecture arguing that the process of deciding about and implementing relevant architectural and urban projects is not the product of any single actor Star architecture can in fact be better studied and understood as assembled by multiple actors and in its relationship with urban transformation In its 18 chapters the book presents a multidisciplinary collection of expert contributions in the fields of urban planning architecture media studies urban economics geography and sociology consistently brought together for the first time to deal with this topic Through a vast

array of case studies and analytical techniques touching over 20 cities in Europe the book shows the positive and more problematic impacts of star architecture with reference to the preservation of built heritage tourism and media The book will be of interest to architects sociologists urban planners and public administrators *Big and Green* David Gissen,2002 More than a century after its inception the skyscraper has finally come of age Though it has long been lampooned as a venal and inhospitable guzzler of resources a revolutionary new school of skyscraper design has refashioned the idiom with buildings that are sensitive to their environments benevolent to their occupants and economically viable to build and maintain Designed by some of the best known architects in the world these towers are as daring aesthetically as they are innovative environmentally *Big and Green* is the first book to examine the sustainable skyscraper its history the technologies that make it possible and its role in the future of urban development The book examines more than 40 of the most important recent sustainable skyscrapers including Fox Fowle s Reuters Buildings in New York Norman Foster s Commerzbank in Frankfurt and MVRDV s spectacular Dutch Pavilion from Expo 2000 in Hanover with project descriptions photographs and detailed drawings Interviews with such leaders in the field as Sir Richard Rogers William McDonough and Kenneth Yeang are also included *Architectural Structures* J. Wayne Place,2007-03-16 ARCHITECTURAL STRUCTURES Architecture A highly illustrative structural design resource for architects and builders Architectural Structures provides the critical tools and know how to design and build structures that will withstand wind earthquakes and other forces This major survey of structural design is a useful guide to the fundamentals of establishing the structural concept for a building and dealing with structural issues Using diagrams models computer simulations case studies and exercises Architectural Structures provides a comprehensive narrative that makes selecting and giving shape to structures and structural elements understandable In addition to developing the necessary vocabulary to effectively work with structural engineers it helps readers gain a common sense understanding of principles and issues the complexities of the design process and useful analytic methods This exceptional volume also features Diagrams drawings and photographs supporting complex concepts Helpful case studies illustrating structural behavior and the design of structural systems Information on cost estimation and other practical issues Real world problems and solutions based on actual building structures **Representative Projects** ,1980
