

# SOFT SKILLS

## Training for Your Employees

Soft skills are personal attributes that enable someone to interact effectively and harmoniously with other people. They include things like communication, problem-solving, teamwork, and time management. While hard skills are essential for employees to possess, it's often the soft skills that make the difference between a good employee and a great one. That's why employers must provide soft skills training for their employees.

# #1

### TRAINING:

#### In-house Training

For employers who want to customize training to their needs. The more intimate setting benefits employees who may feel more comfortable learning in a smaller group.

#### Online Training

Convenient for employers and employees. Often more affordable than in-house training, it provides employees with the flexibility to learn at their own pace.

#### Classroom Training

For employees who learn best in a structured setting, this also allows for more interaction and collaboration.

# #2

### KPIs:

If employees are more productive after the training, it impacts them positively.

#### Employee Satisfaction

If employees are unhappy with the training, they're unlikely to stick with it or see any benefits.

#### Retention Rates

If employees leave the company at a higher rate after the training, likely, the exercise is not meeting their needs.

#### Productivity

If employees are more productive after the training, it impacts them positively.
