Skylarks Song:

The Skylark Paul Donald, 2010-06-30 The Skylark is one of Britain's most popular and inspirational birds and in recent years it has also been one of the most newsworthy. The species population has plummeted as a consequence of changes in farming practice and the RSPB has launched a major research and fund raising campaign to save the blithe spirit from further decline. This book looks at all aspects of the life of the Skylark from its biology migratory patterns breeding behaviour and habitat requirements to its role in legend and folklore. It also discusses its recent rapid decline which has led to the species being placed on the top priority red list of Birds of Conservation Concern by the leading governmental and non governmental conservation organisations in the UK. Three closely related species Oriental and Japanese Skylarks and the enigmatic Raso Lark are also discussed. The Evolution of Bird-song Charles A. Witchell, 1896 *The Sportsman's magazine of life in London and the country, ed., by Miles's Boy Miles's Boy (pseud), 1845* Singing Like Larks Andrew Millham, 2023-07-11 Birds are beloved for their song and have featured in our own music for centuries. Singing Like Larks opens a rare window onto birdlife folklore traditional verse and song writing especially in the British Isles. In this charming volume folklore verse and nature writing combine to explore why birds appear in so many folk songs with song lyrics history and anecdotes drawing on a rich heritage. Ornithological folk songs are themselves something of a threatened species. Melodies lost in the passage of time their lyrics tucked in archives our awareness of birds their song and our own traditions must be passed down from one generation to the next. Lifetimes of wisdom are etched into these songs preserving the natural rhythms of times past and our connection to feathered friends. A treasury of bird related folk songs this is also an account of one young nature writer's journey into the world of folk music and a joyous celebration of song the seasons and our love of birds. Etchings of the Heart Giovanna Sclafani, 2012-10-03 Giovanna is a free lance writer and a published author of her new book Etchings of the Heart and dreams and visions of love. This book is a result of six years of purging her soul through writing that gave way to a wondrous spiritual awakening after a series of events beginning with the death of her father and a downward spiraling of her personal life that enabled her to see that everything in life happens for a reason. When you reach rock bottom there is nowhere to go but up says Giovanna. Her book delves into the mysteries of life including dj vu and psychic visions and dreams. The intertwining of modern poetry with mythical characters and legends makes it ethereal and enthralling. Her fantastic view of love is reminiscent of the great love poets of old. We need a revival of great love poetry again says Giovanna. I guess I am a hopeless romantic with my moon being in Venus. I believe that our sun and moon signs play a significant role in our lives. This book is a unique book of poetry as it is a quintessential array of poetry from the heart thus came the title Etchings of the heart. Giovanna said my friends in my poetry group on writers caf and Marys Bridge all agreed that my poems came straight from my heart and I have to agree. There are all kinds of love that I write about. There is love of family friends romantic love pets nature and God. In all love there is beauty to be found. I also write about the paradox of love.

which consists of Love vs hate or Agony and ecstasy both sides of a fiery sword In her poem Never was a day Giovanna writes for never was a day when there was sunshine without rain and for love to exist without pain The Merlin Frank

Rennie,2025-07-29 The Merlin *Falco columbarius* is Europe's smallest falcon and its breeding presence is often regarded as a key indicator of a healthy natural environment A highly adaptable species it displays a variety of intriguing and contrasting behaviours across its extensive Northern Hemisphere range Frank Rennie has spent many years observing and researching the characteristics of this important raptor His landmark volume brings together for the first time many important sources of information from Europe Asia and North America to better explain the complex and adaptive nature of the Merlin which make it such a fascinating bird to observe The book provides in depth coverage of the complex origins and behaviours of the Merlin from its obscure fossil ancestors through to the contemporary challenges it faces from habitat destruction environmental pollution and climate change Close investigation of its hunting methods habitat selection and breeding activities reveals some surprising regional differences that offer a new understanding of this critically important elusive and quietly majestic indicator species
