Slaughterhouse Bosnia And The Failure Of The West:

Slaughterhouse David Rieff, 1996-03-08 The war that erupted in April 1992 has turned Bosnia into what Rieff starkly and accurately calls a slaughterhouse In this chronicle of his time spent in Bosnia between 1992 and 1994 Rieff presents an unforgettable lament for Bosnia and a stinging indictment of Western policy Michael Ignatieff New York Times Book Review

"A Problem from Hell" Samantha Power, 2013-05-14 From former UN Ambassador and author of the New York Times bestseller *The Education of an Idealist* Samantha Power the Pulitzer Prize winning book on America's repeated failure to stop genocides around the world In her prizewinning examination of the last century of American history Samantha Power asks the haunting question Why do American leaders who vow never again repeatedly fail to stop genocide Power a professor at the Harvard Kennedy School and the former US Ambassador to the United Nations draws upon exclusive interviews with Washington's top policymakers thousands of declassified documents and her own reporting from modern killing fields to provide the answer *A Problem from Hell* shows how decent Americans inside and outside government refused to get involved despite chilling warnings and tells the stories of the courageous Americans who risked their careers and lives in an effort to get the United States to act A modern classic and an angry brilliant fiercely useful absolutely essential book New Republic *A Problem from Hell* has forever reshaped debates about American foreign policy Winner of the Pulitzer Prize Winner of the Robert F Kennedy Book Award Winner of the National Book Critics Circle Award Winner of the J Anthony Lukas Book Prize Winner of the Anisfield Wolf Book Award Winner of the Raphael Lemkin Award **American Adventurism Abroad** Michael J. Sullivan, 2004-08-30 This book provides a comparative analysis of 30 American interventions into Third World countries An historical approach is used to place the featured cases into a more general history of American Diplomacy The author uses his assessments to prove that U S foreign policy has been driven by the goal of being the ultimate power in the global capitalist economic system The author makes his work unique by giving a critical view of America's place in the world during an anticipated time of war and raised patriotism He provides a scholarly look at U S diplomacy leading up to the era of the War on Terror Sullivan explains how over the past 50 years the U S has come to succeed Europe as ruler of the global economic system The political systems which have been promoted by the U S to preserve worldwide capitalism range from one party rule to monarchies and recurring civil war The interventions discussed have proved to be short term successes for U S policy but more often tragic for the local societies affected Sullivan draws on his 1996 release *Comparing State Politics* to create a number of tables that place U S involvement into geographic and hierarchic perspective The reader is ultimately provided with a provocative thesis that challenges traditional interpretations of America's role in the world This book will be an asset to any undergraduate college student taking classes in political science or history It will also appeal to a general audience **Can Intervention Work?** Rory Stewart, Gerald Knaus, 2012-08-27 Best selling author Rory Stewart and political economist Gerald Knaus examine the impact of large scale interventions from Bosnia to Afghanistan A fresh and

critically important perspective on foreign interventions Washington Post Can Intervention Work distills Rory Stewart's author of *The Places In Between* and Gerald Knaus's remarkable firsthand experiences of political and military interventions into a potent examination of what we can and cannot achieve in a new era of nation building As they delve into the massive military driven efforts in Bosnia Iraq and Afghanistan the authors reveal each effort's enormous consequences for international relations human rights and our understanding of state building Stewart and Knaus parse carefully the philosophies that have informed interventionism from neoconservative to liberal imperialist and draw on their diverse experiences in the military nongovernmental organizations and the Iraqi provincial government to reveal what we can ultimately expect from large scale interventions and how they might best realize positive change in the world Author and columnist Fred Kaplan calls *Can Intervention Work* the most thorough examination of the subject of intervention that I've read in a while

Making War and Building Peace Michael W. Doyle, Nicholas Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn't Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN's role in launching development projects after civil war should be expanded
