Slave Rebellion In Brazil The Muslim Uprising Of 1835 In Bahia:

Slave Rebellion in Brazil João José Reis, 1995-09 On the night of January 24 1835 hundreds of African Muslim slaves poured into the streets of Salvador capital of the Brazilian province of Bahia to confront soldiers and armed civilians Nearly 70 slaves were killed More than 500 were sentenced to death prison whipping or deportation Although the rebel slaves failed to win their freedom the repercussions of their actions were felt throughout the nation making this the most important urban slave rebellion in the Americas and the only one in which Islam played a major role In this history of the 1835 uprising Joao Jose Reis draws on hundreds of police and trial records in which Africans despite obvious intimidation spoke out about their cultural social economic religious and domestic lives in Salvador Now available in this revised and expanded English edition *Slave Rebellion in Brazil* is a portrait of the conditions of urban slavery and an absorbing account of conspiracy uprising and punishment

Slave Rebellion in Brazil João José Reis, 1982 *African Roots/American Cultures* Sheila S. Walker, 2001

Africans and their descendants constituted the majority of the population of the Americas for most of the first three hundred years Yet their fundamental roles in the creation and definition of the new societies of the New world and their significance in the development of the Atlantic world have not been acknowledged This multidisciplinary volume highlights the African presence throughout the Americas and African and African Diasporan contributions to the material and cultural life of all of the Americas and of all Americans It includes articles from leading scholars and from cultural leaders from both well known and little known African Diasporan communities Privileging African Diasporan voices it offers new perspectives data and interpretations that challenge prevailing understandings of the Americas Its fundamental premise is that the story of the Americas can only be accurately told by including the story of the foundational roles played by Africans and their descendants in the Americas

Colonialism and Race in Luso-Hispanic Literature Jerome Branche, 2006 Branche examines a wide variety of Latin American literature and discourse to show the extent and range of racist sentiments throughout the culture He argues that racism in the modern period 1415 1948 was a tool used to advance Spanish and Portuguese expansion colonial enterprise and the international development of capitalism Provided by publisher Public Memory of Slavery , Seeds of Insurrection Manuel Barcia Paz, 2008-12-15 On a late September day in 1837 shortly after sunset a group of six slaves marched into the small Cuban village of Gira de Melena beating African drums and singing loudly Alarmed villagers rushed into the streets with machetes sabers and spears ready to take action against the disobedient slaves Yet this makeshift parade never evolved into the violent rebellion the villagers expected Though the slaves who lived on Cuban coffee and sugar plantations sometimes defied their captors by orchestrating fierce uprisings and committing murder and suicide they also resisted in less overt ways by running away feigning sickness breaking tools and by maintaining their own cultures In *Seeds of Insurrection* Manuel Barcia examines many largely overlooked ways in which African and Creole slaves in Cuba defied domination in the first half of the nineteenth century Ethnic and geographic origins as well as

slaves personal experiences affected their resistance to bondage Dividing resistance into two broad types violent and nonviolent Barcia examines when and why the slaves chose certain forms Creole slaves grew up in Cuba for example so they learned both the language of their ancestors and Spanish and they came to understand their Spanish masters as few African born slaves ever could Consequently they cleverly used the few rights colonial laws offered them to their advantage African born slaves by contrast carried with them their memories from home their religious beliefs jokes and songs and they dealt with enslavement by incorporating this cultural heritage into their everyday activities Barcia demonstrates the ways in which the slaves made use of the privacy of their huts and barracks and the lack of surveillance in the fields to voice their ideas and opinions through song religion gossip folktales and jokes within an acceptable degree of safety Relying primarily on transcripts of local and central court proceedings involving slaves free people of color slave owners and witnesses Barcia reveals the slaves view of their world He also explores the forms of domination practiced by colonial authorities plantation masters and overseers gleaning insight from innovative sources including medical reports and diaries of rancheadores as well as public and private correspondence newspapers and the contributions of contemporary scholars In *Seeds of Insurrection* Barcia expands the definition of resistance and adds an invaluable dimension to the understanding of slavery in the Americas

The Chattel Principle Walter Johnson, 2008-10-01 This wide ranging book presents the first comprehensive and comparative account of the slave trade within the nations and colonial systems of the Americas While most scholarly attention to slavery in the Americas has concentrated on international transatlantic trade the essays in this volume focus on the slave trades within Brazil the West Indies and the Southern states of the United States after the closing of the Atlantic slave trade The contributors cast new light upon questions that have framed the study of slavery in the Americas for decades The book investigates such topics as the illegal slave trade in Cuba the Creole slave revolt in the U S and the debate between pro and antislavery factions over the interstate slave trade in the South Together the authors offer fresh and provocative insights into the interrelations of capitalism sovereignty and slavery

Arming Slaves Christopher Leslie Brown, Philip D. Morgan, 2008-10-01 Arming slaves as soldiers is a counterintuitive idea Yet throughout history in many varied societies slaveholders have entrusted slaves with the use of deadly force This book is the first to survey the practice broadly across space and time encompassing the cultures of classical Greece the early Islamic kingdoms of the Near East West and East Africa the British and French Caribbean the United States and Latin America To facilitate cross cultural comparisons each chapter addresses four crucial issues the social and cultural facts regarding the arming of slaves the experience of slave soldiers the ideological origins and consequences of equipping enslaved peoples for battle and the impact of the practice on the status of slaves and slavery itself What emerges from the book is a new historical understanding the arming of slaves is neither uncommon nor paradoxical but is instead both predictable and explicable

The Black Urban Atlantic in the Age of the Slave Trade Jorge Canizares-Esguerra, Jorge Cañizares-Esguerra, Matt D. Childs, James Sidbury, 2013-07-03 During the era of the Atlantic slave trade vibrant port cities became home to thousands of Africans in transit Free and enslaved blacks alike crafted the necessary materials to support transoceanic commerce and labored as stevedores carters sex workers and boarding house keepers Even though Africans continued to be exchanged as chattel urban frontiers allowed a number of enslaved blacks to negotiate the right to hire out their own time often greatly enhancing their autonomy within the Atlantic commercial system In The Black Urban Atlantic in the Age of the Slave Trade eleven original essays by leading scholars from the United States Europe and Latin America chronicle the black experience in Atlantic ports providing a rich and diverse portrait of the ways in which Africans experienced urban life during the era of plantation slavery Describing life in Portugal Brazil Mexico the Caribbean and Africa this volume illuminates the historical identity agency and autonomy of the African experience as well as the crucial role Atlantic cities played in the formation of diasporic cultures By shifting focus away from plantations this volume poses new questions about the nature of slavery in the sixteenth to nineteenth centuries illustrating early modern urban spaces as multiethnic sites of social connectivity cultural incubation and political negotiation Contributors Trevor Burnard Mariza de Carvalho Soares Matt D Childs Kevin Dawson Roquinaldo Ferreira David Geggus Jane Landers Robin Law David Northrup Jo o Jos Reis James H Sweet Nicole von Germeten
