Sleeping Beauties The Jerome L Joss Collection Of African:

Sleeping Beauties William Joseph Dewey, Toshiko Miyabayashi McCallum, Jerome Feldman, 1993 **Behind Closed Eyes** Kasia Szpakowska, 2003-12-31 Dreams and nightmares have long puzzled and fascinated yet this is the first book to explore such visions in the Ancient Egyptian world The author traces the evidence from the first half of Egypt's long history the Old Kingdom through the New Kingdom a time span of over 1 000 years The book is arranged thematically with chapters devoted to the literary use of dreams to the political use of divine visions to the technology used to ward away terrorizing nightmares It also explores the Ramesside Dream Book a unique text that reveals the desires and anxieties that could inspire an Egyptian's dreams with images of sex and power of gods and the dead All the relevant passages are conveniently translated in an appendix *Visions of Africa* University of California, Los Angeles. Fowler Museum of Cultural History, 1994

African Dream Machines Anitra Nettleton, 2007-10-01 African Dream Machines takes African headrests out of the category of functional objects and into the more rarefied category of art objects Styles in African headrests are usually defined in terms of western art and archaeological discourses but this book interrogates these definitions of style and demonstrates the shortcomings of defining a single formal style model as exclusive to a single ethnic group Among the artefacts made by southern African peoples headrests were the best known Anitra Nettleton's study of the uses and forms of headrests opened up a number of art historical methodologies in the attempt to gain an understanding of form style and content in African art objects Her drawings of each and every headrest encountered become a major part of the project

Beads of life Marie-Louise Labelle, 2005-01-01 Beads of Life is a fascinating exploration of traditional beadwork from eastern and southern Africa as well as the socio religious principles upon which many aesthetic choices were based The author concludes with an examination of contemporary beadwork as seen in particular through the eyes of Canadians from these regions Published in English **Oceania** Metropolitan Museum of Art (New York, N.Y.), Eric Kjellgren, 2007 Includes detailed chapters devoted to each of the five major cultural regions of the Pacific Australia Melanesia Micronesia Polynesia and the islands of Southeast Asia **Speaking of Objects** Constantine Petridis, 2020-11-10 A lavishly illustrated selection of highlights from the Art Institute of Chicago's extraordinary collection of the arts of Africa Featuring a selection of more than 75 works of traditional African art in the Art Institute of Chicago's collection this stunning volume includes objects in a wide variety of media from regions across the continent Essays and catalogue entries by leading art historians and anthropologists attend closely to the meanings and materials of the works themselves in addition to fleshing out original contexts These experts also underscore the ways in which provenance and collection history are important to understanding how we view such objects today Celebrating the Art Institute's collection of traditional African art as one of the oldest and most diverse in the United States this is a fresh and engaging look at current research into the arts of Africa as well as the potential of future scholarship **African Arts** , 2004 *Heritage and History in Africa* Ignatius Song Womei, 2024-11-14 There has been a

long standing belief and misconception that relevant history is shelved and can only be retrieved from written documentation This conviction systematically diminished in importance with the emergence and approach of Africanist scholarship in the 1960s which increasingly exposed the pitfalls of religiously relying on paper inscribed or engraved historical sources This twist away from recorded history gave premium to a craving for the exploration and exploitation of material and immaterial heritage sources to understand and communicate connections between heritage and history in Africa This compendium of interlacing themes on Cameroon threads the multiple but complex ways by which vestiges natural and man made and social memory merges into configuration of perspectives on historical representation of people environment and society in Africa Designed in seven grand themes with a conceptual lead on heritage and presented in sixteen chapters this book generally provides reliable non documented sources that help construct the African indigenous knowledge as experienced by themselves from their heritage This volume is highly recommended for use by scholars students practitioners promoters and lovers of heritage values

Ethiopia at the Crossroads Christine Sciacca, 2024-03-08 Ethiopia at the Crossroads celebrates the artistic traditions of Ethiopia from their origins to the present day spanning over 1 700 years of history Seated in the Horn of Africa between Europe and the Middle East the country is an intersection of diverse climates religions and cultures This landmark catalogue examines Ethiopian art as representative of the nation's notable history and demonstrates the enormous cultural significance of this often overlooked African nation through the themes of cross cultural exchange and the human role in the creation and movement of art objects It features more than 250 images of objects including painted icons illuminated manuscripts coins textiles metalwork and carved wooden crosses in addition to works by contemporary Ethiopian artists Because the artistic production of Ethiopia is still relatively unknown to Western audiences Ethiopia at the Crossroads provides an accessible overview of the history and culture of the region The book includes a series of scholarly essays that expand upon the themes and historical moments of encounter between Ethiopia and surrounding cultures as well as an illustrated checklist of objects in the exhibition and technical findings of the Walters conservation team
