**Remembering the Crusades and Crusading** Megan Cassidy-Welch, 2016-11-03 Remembering the Crusades and Crusading examines the diverse contexts in which

crusading was memorialised and commemorated in the medieval world and beyond The collection not only shows how the crusades were commemorated in the twelfth and thirteenth centuries but also considers the longer term remembrance of the crusades into the modern era This collection is divided into three sections the first of which deals with the textual material and visual sources used to remember Each contributor introduces a particular body of source material and presents case studies using those sources in their own research The second section contains four chapters examining specific communities active in commemorating the crusades including religious communities family groups and royal courts Finally the third section examines the cultural memory of crusading in the Byzantine Iberian and Baltic regions beyond the early years as well as the trajectory of crusading memory in the Muslim Middle East This book draws together and extends the current debates in the history of the crusades and the history of memory and in so doing offers a fresh synthesis of material in both fields It will be essential reading for students of the crusades and memory
