The Habsburg Legacy 1867-1939:

The Habsburg Legacy, 1867-1939 Bruce F. Pauley, 1972 *The Habsburg Legacy, 1867-1939* Bruce F. Pauley, 1972

Pioneering History on Two Continents Bruce F. Pauley, 2014-07-15 Bruce F. Pauley draws on his family and personal history to tell a story that examines the lives of Volga Germans during the eighteenth century the pioneering experiences of his family in late nineteenth century Nebraska and the dramatic transformations influencing the history profession during the second half of the twentieth century An award winning historian of antisemitism Nazism and totalitarianism Pauley helped shape historical practice from the 1970s to the 90s both in the United States and Central Europe *Pioneering History on Two Continents* provides an intimate look at the shifting approaches to the historian's craft during a volatile period of world history with an emphasis on twentieth century Central European political social and diplomatic developments It also examines the greater sweep of history through the author's firsthand experiences as well as those of his ancestors who participated in these global currents through their migration from Germany to the steppes of Russia to the Great Plains of the United States Hitler's Austria Evan Burr Bukey, 2018-08-25 Although Austrians comprised only 8 percent of the population of Hitler's Reich they made up 14 percent of SS members and 40 percent of those involved in the Nazis killing operations This was no coincidence Popular anti-Semitism was so powerful in Austria that once deportations of Jews began in 1941 the streets of Vienna were frequently lined with crowds of bystanders shouting their approval Such scenes did not occur in Berlin Exploring the convictions behind these phenomena Evan Bukey offers a detailed examination of popular opinion in Hitler's native country after the Anschluss annexation of 1938 He uses evidence gathered in Europe and the United States including highly confidential reports of the Nazi Security Service to dissect the reactions views and conduct of disparate political and social groups most notably the Austrian Nazi Party the industrial working class the Catholic Church and the farming community Sketching a nuanced and complex portrait of Austrian attitudes and behavior in the Nazi era Bukey demonstrates that despite widespread dissent discontent and noncompliance a majority of the Austrian populace supported the Anschluss regime until the bitter end particularly in its economic and social policies and its actions against Jews *Beyond Secularism and Jihad?* Peter D. Beaulieu, 2012-07-13 Peter D. Beaulieu examines the challenge posed by and to modernity and historic Islam as they encounter one another He compares the Western separation of Church and state with the unitary Islamic State and explores the proposed cultural and societal principles of the Second Vatican Council as potentially influencing long term events in both arenas Beaulieu's research is comprehensive and richly documented yet offers an accessible triangular inquiry into the mosque the manger and modernity By restoring a place at the table for Trinitarian Christianity alongside the engulfing monotheism of Islam and the alternative skepticism of Western rationalism this inquiry broadens the pallet of inter religious and intercultural contact points *Beyond Secularism and Jihad* provides balanced attention to the differences as well as the similarities between Christianity Islam and modernity An emerging theme

is natural law which is universal and intrinsic to all mankind and not confined to competing theologies Neglected in the West that it helped create natural law might contribute to the needed grammar for dialogue between the citizens in the West and the followers of Islam

Przemyśl, Poland John E. Fahey, 2023-02-15 Przemyśl Poland A Multiethnic City During and After a Fortress 1867 1939 examines the economic political demographic and cultural ramifications of Austro Hungarian military investment in Przemyśl Poland from the inception of the fortress in the 1870s through four months of siege in World War I to the decades of social change before World War II The city of Przemyśl lies a few miles west of the Poland Ukraine border In the decades before World War I the Austro Hungarian military poured money troops and material into this multiethnic city and transformed it into the Empire's largest fortress complex Though intended to protect the border with Russia and inspire political loyalty the resultant garrison instead made the city a target and prompted revulsion among local socialists who opposed the army's dominant position in town The heart of this book is the exploration of the relationship between soldiers and civilians in urban environments The city's physical and demographic growth was irreversibly tied to the army yet much of the population rejected the garrison and fought with its soldiers By 1907 Przemyśl featured one of the largest social democratic movements in Austrian Galicia By 1914 the city was besieged by the Russian Army and by 1918 the city was part of the new Second Polish Republic Przemyśl Poland is the story of how a single city transformed radically over a few decades with lasting lessons about the consequences of the military culture colliding with civilian life

Defeat and Disarmament Joe C. Dixon, 1986 This book traces Austria's attempts in 1918 1922 to create and control a new army and to do so under the limitations imposed by the Paris Peace Conference The tragic tale that emerges is one in which optimism ironically feeds the currents of distrust and bitterness which finally cause the demise of the embryonic Austrian republic and adds to our understanding of the failure of Europe as a whole to achieve a secure peace between the wars

The Ambivalence of Identity Peter Thaler, 2001 The Ambivalence of Identity examines nation building in Austria and uses the Austrian experience to explore the conceptual foundations of nationhood Traditionally Hapsburg Austria has provided the background for these works In the course of this study it should become clear that Republican Austria is as valuable in understanding national identity as its monarchic predecessor Historical interpretations to Austrian nation building gives the Austrian experience special relevance for the larger debate about the nature of history Such aspects in the analysis of the post war Austrian nation building are the role of consciousness during the building process the role of neighboring countries and the role of World War II

Religious Dissent Between the Modern and the National Bojan Aleksov, 2006 Bojan Aleksov's study portrays the origins and the spreading of the Nazarenes the first Protestant Serbs in South Hungary and Serbia as an indicator of social change among the Serbian people whose demands and needs the Orthodox Church had failed to meet In order to account for the success of Nazarene missionaries it also illuminates the strategies employed by Nazarenes in expanding and maintaining their communities which range from communalism group mores and practices internal economic

organization of the Nazarene communities and their attitude towards economic change and finally the appeal of the Nazarene faith and worship Looking at the social economic cultural and historical motives of conversions to Nazarenes it examines in depth the Nazarenes challenge to the Serbian Orthodox Church and the latter's belated response in the form of the so called re Orthodoxization in line with newly invented tradition of the Serbian version of Orthodox Christianity Svetosavlje and the development of the mass Bogomoljci movement with its implications for the development of the Serbian national self identification observed in the changes of the notions of Church religion and piety which finally during the interwar period resulted in a discourse that combined and fused the nation and the Orthodox Church and closed the long lasting gap between the Church and the Serbian people nation Seedtime for Fascism George V. Strong, 2016-09-16 This study examines the political culture in Austria Hungary in the latter half of the 19th century It analyzes the centrifugal forces that arose from growing ethnic nationalism in the empire and that ultimately overpowered the centripetal forces which held the Austrian Hungarian state idea together The analysis is applied further to provide an historical explanation of analogous developments in post 1989 Europe
