The Hamburg Rules A Choice For The Eec:

The Hamburg Rules Francesco Berlingieri, European Institute of Maritime and Transport Law, 1994 **The Hamburg Rules: a Choice for the EEC?: Conclusion** Leo Delwaide, 1994 The Hamburg Rules: a Choice for the EEC? International Colloquium R (Chairman) Roland, 1993 *The Hamburg Rules: a Choice for the EEC? an Introduction to the Theme of the Antwerp Colloquium* Marc Huybrechts, 1994 **The Hamburg rules : a choice for the EEC ? : international colloquium held on 18 and 19 November, 1993** , 1994 *The Carriage Of Goods By Sea Under The Rotterdam Rules* Rhidian Thomas, 2017-09-19 This book is based on papers presented at the Sixth International Colloquium organised by the Institute of International Shipping and Trade Law Swansea University in September 2009 The sixteen contributions have been written by a team of international experts who collectively submit the newly proposed Rotterdam Rules to a sustained penetrative and comprehensive analysis The scale of the Rotterdam Rules is staggeringly wide as also are their detail and complexity and coming to a full understanding of the provisions and implications of the Rules represents a challenge even to those experienced in the law and practice of commercial shipping This book examines virtually all aspects of the Rules and will provide an effective reliable and readable guide to everyone seeking a complete grasp of the Rules

Jurisdiction and Arbitration Clauses in Maritime Transport Documents Felix Sparka, 2010-01-11 Jurisdiction and arbitration clauses are two different mechanisms that help to ensure impartiality and predictability in international dispute resolution Despite their benefits these clauses can be inconvenient for parties that are forced to litigate before distant fora Moreover particular problems arise in the context of maritime transport documents Based on a broad comparative approach this study seeks to explain the existing rules within their legal context and to develop a coherent system for such clauses which takes into account the underlying interests as well as economic theory While offering detailed answers to most issues surrounding jurisdiction and arbitration clauses in maritime transport documents the book confronts the fundamental question of the limits of freedom of contract in an international setting **The Hamburg Rules** , 1994 **Container Carrier's Liability in International Multimodal Transport** Jia Jia, 2023-08-28 International multimodal transport has been developed rapidly in recent 50 years and the worldwide use of containers made a valuable contribution There are various effective international conventions for different modes of transport and this monograph focuses on the fundamental parts of the international multimodal transport container carrier's liability regime The central research question is has the current liability regime provided a sufficient framework for container carriers in international multimodal transport The question can be divided into three issues Firstly how wide should the scope of application of the international unimodal conventions be to cover the period of liability of container carrier in international multimodal transport Secondly do the existing conventions provide a proper and satisfactory framework to govern container carrier's liability Thirdly if not what solutions can be adopted In order to answer the above questions the novelty of this monograph lies on experiences gained

from recent case law in relation to container transport This monograph does not only discover problems in the existing legal system but also provides feasible suggestions for container carrier s liability regime based on the Rotterdam Rules

European Seaports Law E. van Hooydonk, 2003 In 2001 the European Commission published its so called Ports Package a first attempt at developing a European policy for seaports The Ports Package includes a Directive on Market Access to Port Services which will influence the port industry thoroughly and lead to fundamental changes in daily port operations In this volume academics as well as practising lawyers from France Ireland Italy and Belgium describe the legal framework for the several branches of the port sector recalling the far reaching practical implications of existing general EU law and discussing the latest versions of the Port Services Directive proposal Completed by authoritative views from the head of the Commission s ports unit a specialist MEP and representatives from both the public and the private port sector this book offers a fairly complete overview of existing port law as well as the main points of concern in the policy debate Its purpose is to serve both as a policy background document and as a working tool for public and private port players as well as for academics and lawyers
