The Heart Of England Oxford Paperbacks

Katie Barclay, Bronwyn Reddan

The Heart Of England Oxford Paperbacks:

English Novel Hist 1895-1920 David Trotter, 2022-02-22 First Published in 1993 Written specifically for students and assuming no prior knowledge of the subject David Trotter's *The English Novel in History 1895-1920* provides the first detailed and fully comprehensive analysis of early twentieth century English fiction Whereas all previous studies have been rigorously selective Trotter looks at over 140 novelists across the whole spectrum of fiction from the innovations of Joyce's *Ulysses* through to popular mass market genres such as detective stories and spy thrillers By examining the novels in both stylistic and historical terms David Trotter looks at the ways in which writers responded to contemporary preoccupations such as the spectacle of consumption and the growth of suburbia or to anxieties about the decline of Empire racial degeneration and sexual anarchy He also challenges the view that literature of the period can be interpreted as a neat procession from realism to Modernism

The Heart of His Mystery Waterfield John Waterfield, John Waterfield, 2009-10 Shakespeare has traditionally been viewed as Queen Elizabeth's poet laureate and as the official mouthpiece of the Elizabethan age But the Elizabethan world was torn apart by the religious divisions initiated by the Reformation and vitiated by the government's merciless persecution of Catholics As it was the victors who wrote the history the English Reformation has been portrayed as a peaceful transition enjoying majority support when in fact it was nothing of the kind Elizabeth's regime was a police state which sanctioned the use of torture where Catholic priests and those who harboured them were liable to summary and bloody execution The persecution of Catholics was continued by James I evoking the violent response of the Gunpowder Plot *The Heart of His Mystery* examines Shakespeare's life and work against this background There is strong biographical evidence that he was himself a Catholic and a detailed survey of his plays and poems shows that his imagination was intimately bound up with his religious faith When we realise that his human compassion grew from his membership in a persecuted community we can glimpse the mystery he has encrypted in his works and we come closer to understanding the hidden heart of Shakespeare the man

The Heart of Leonardo Francis Wells, 2014-07-08 This book contains all of Leonardo Da Vinci's drawings on the heart and its physiology accompanied by re-translations of all of the associated notes All Leonardo's drawings have been interpreted in the light of modern knowledge by a practicing cardiac clinician and anatomist The veracity of his work is proven against contemporary dissections of cardiac structure and comparison of his illustrations with contemporary images generated by Magnetic Resonance scanners and high definition ultrasound will astound the reader Perhaps the most interesting element is the re-dissection of the Ox heart set against Leonardo's own drawings His place in the greater scheme of anatomical development will be put into context with his ideas of man's place in the microcosm/macrocosm continuum

Subject Index of the Modern Books Acquired by the British Museum in the Years ..., 1927

The Feeling Heart in Medieval and Early Modern Europe Katie Barclay, Bronwyn Reddan, 2019-12-02 The heart is an iconic symbol in the medieval and early modern European world In addition to being a

physical organ it is a key conceptual device related to emotions cognition the self and identity and the body The heart is read as a metaphor for human desire and will and situated in opposition to or alongside reason and cognition In medieval and early modern Europe the feeling heart the heart as the site of emotion and emotional practices informed a broad range of art literature music heraldry medical texts and devotional and ritual practices This multidisciplinary collection brings together art historians literary scholars historians theologians and musicologists to highlight the range of meanings attached to the symbol of the heart the relationship between physical and metaphorical representations of the heart and the uses of the heart in the production of identities and communities in medieval and early modern Europe

Advancing Dietetics and Clinical Nutrition E-Book Anne Payne, Helen M. Barker, 2011-05-28 This book provides a comprehensive account of the relevant physiology pathophysiology nutritional therapy and dietetic application for each specialist dietetic area All major specialist areas involved in the treatment of adults are covered The first section deals with clinical governance for example patient centred care clinical decision making and developing evidence based practice The second section on advanced clinical practice describes 18 clinical conditions or dietetic areas in detail There is detailed coverage of 18 clinical conditions or dietetic areas The control of food intake and absorption of nutrients Drug nutrient interactions Food allergy allergy and intolerance Irritable bowel disease IBD and colorectal cancer Short bowel syndrome Enteral nutrition Parenteral nutrition Thermal injury Nutrition and liver disease HIV Palliative care Renal disease Diabetes Obesity Cardiovascular disease Stroke Neurological conditions Mental health Each chapter concludes with a section on possible future developments in the specialty providing insight into hot topics making this an essential text for all working in the field of Dietetics and Clinical Nutrition Each clinical chapter follows a standard structure Learning objectives Key points summarise important aspects Case studies with questions and answers help link theory to practice References and further reading suggestions encourage wider research

Political Affairs of the Heart Linda Van Netten Blimke, 2022-07-15 Richly researched and engagingly written Political Affairs of the Heart traces the emergence of female sentimental travel writing in late eighteenth century Britain and posits its centrality to women's engagement with national and gender politics This study examines four travel narratives written by women between 1774 and 1795 convincingly arguing that they effectively deploy the discourse of sensibility to engage with debates around Britain's national identity during the French and American Revolutions Van Netten Blimke contends that Laurence Sterne's A Sentimental Journey 1768 which first introduced sentimental discourse to the travelogue facilitated women's gradual inclusion into this previously male dominated genre effectively paving the way for women to influence the country's sociopolitical transformation These four previously understudied works successfully combine eyewitness authority with the language of sensibility to mount impassioned interventions in their nation's perception and practice of revolutionary politics at a time when its national identity was most in flux

The Heart of Long Term Care Rosalie A. Kane, Robert L. Kane, Richard C. Ladd, 1998 Long term care in the United States has taken the nursing

home as its benchmark but the monetary social and psychological costs of nursing home care are all too high This book challenges the current dominance of nursing homes as the principal institution of long term care It offers a series of alternative models where both services and housing can be provided in a way that allows long term consumers to enjoy dignified normal lifestyles It addresses the political and economic consequences of making this decision The authors start with the premise that long term care is designed to assist people who lack the capacity to function fully independently They argue that no disabled person of any age should be required to forsake his her humanity in exchange for care The book rejects the artificial dichotomy between social and medical care asserting that both play important roles in psychological and physical well being of long term care patients The authors consider the need for competent and compassionate medicine and discuss the methods for improving both its coordination of care and its effectiveness The book redefines the meaning of safety and protection in long term care and how this goal can be accomplished without sacrificing quality of living As the new millennium and the aging of baby boomers approaches more creative approaches to providing better long term care are required This volume outlines a useful framework for the provision of effective and humane community based programs that are both feasible and affordable It will be an invaluable guide for geriatricians public health professionals family physicians nurses and others who care for elderly patients

Spectacular Flirtations Gillian Perry, 2007 During the Georgian period there was a remarkable proliferation of seductive visual imagery and written accounts of female performers Focusing on the close relationship between the dramatic and visual arts at this time this beautiful and stimulating book explores popular ideas of the actress as coquette whore celebrity muse and creative agent charting her important symbolic role in contemporary attempts to professionalize both the theatre and the practice of fine art Gill Perry shows how artists such as Gainsborough Reynolds Hoppner or Lawrence produced complex images of female performers as fashion icons coquettes dignified queens or creative artists The result is a rich interdisciplinary study of the Georgian actress Published for the Paul Mellon Centre for Studies in British Art

Victorian Poetry and the Culture of the Heart Kirstie Blair, 2006-04-27 Victorian Poetry and the Culture of the Heart is a significant and timely study of nineteenth century poetry and poetics It considers why and how the heart became a vital image in Victorian poetry and argues that the intense focus on heart imagery in many major Victorian poems highlights anxieties in this period about the ability of poetry to act upon its readers In the course of the nineteenth century this study argues increased doubt about the validity of feeling led to the depiction of the literary heart as alienated distant outside the control of mind and will This coincided with a notable rise in medical literature specifically concerned with the pathological heart and with the development of new techniques and instruments of investigation such as the stethoscope As poets feared for the health of their own hearts their poetry embodies concerns about a widespread culture of heartsickness in both form and content In addition concerns about the heart's status and actions reflect upon questions of religious faith and doubt and feed into issues of gender and nationalism This book argues that it is

vital to understand how this wider culture of the heart informed poetry and was in turn influenced by poetic constructs
Individual chapters on Barrett Browning Arnold and Tennyson explore the vital presence of the heart in major works by these poets including *Aurora Leigh* *Empedocles on Etna* *In Memoriam* and *Maud* while the wide ranging opening chapters present an argument for the mutual influence of poetry and physiology in the period and trace the development of new theories of rhythm as organic and affective
