The Hebrew Letters Rabbi Yitzchak Ginsburgh, 1990 Sefer Yetzirah the Book of Creation one of the earliest Kabbalistic works teaches that the letters of the Hebrew alphabet are the building blocks of creation Each letter has its own significance spiritual energy and reason for existing In this revised version of Rabbi Ginsburgh's best selling The Alef Beit Jewish Thought Revealed Through the Hebrew Letters he explains how each letter's name form and numerical value play a role in the creative process of the cosmos He draws on the understandings of the well known mystic the Baal Shem Tov in depicting how each letter has nine dimensions with impact in three worlds the physical spiritual and Divine In every letter there is the true completion of the soul a chance to unite consciousness with the code of creation Includes glossary footnotes and index

Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality

MAJOR ARCANA TAROT CARDS' Secrets Esoterically Revealed William John Meegan,2020-01-17 Eucharist Delivered directly from the altar of Christ **BERESHITH : THE HUMAN SKULL IS THE HOUSE OF GOD** William John Meegan,2024-06-18 Religion Esotericism Psychology The first Hebrew word inscribed into the sacred scriptures is BERESHITH The three middle letters in the Hebrew word BERESHITH spells out the Hebrew letter word RESH that symbolizes HEAD SKULL And the first and last two Hebrew letters in the Hebrew word BERESHITH spells out the Hebrew letter word BETH that symbolizes HOUSE That is why I translated the Hebrew word BERESHITH THE HUMAN SKULL IS THE HOUSE OF GOD It is quite interesting to envisage that the first two Hebrew letters BETH and RESH in the Judaeo Christian Scriptures spells out the first word of Genesis BERESHITH In the Beginning was considered in antiquity and in modern times to be the interpretation of the Hebrew word BERESHITH In this volume I will illustrate that the first letter of the BIBLE BETH though it is not translated as in the Beginning it does mystically symbolize the phrase In the Beginning The first chapter of Genesis is a commentary on the first Hebrew letter BETH and it is also a commentary on the VESICA PISCIS

The first Hebrew letter of the Bible BETH is mystically inundated and surrounded by another Hebrew letter called PEI that cannot be seen which is literally invisible for anybody to see PEI has the gematria numerical value of eighty 80 And BETH has the gematria numerical value of forty hundred and twelve 412 The first chapter of Genesis has sixty nine 69 groups of one hundred and forty two 142 Hebrew words held together by eighty 80 hyphens however the number one hundred and forty two 142 is a transposition of the number four hundred and twelve 412 Chapter six 6 will illustrate the sixty nine 69 groups of words colored coded in orange The number sixty nine 69 is a very spiritual number which will be discussed later in this volume Chapter six 6 is written with Hebrew and English words with STRONGS EXHAUSTIVE CONCORDANCE S numbers placed over the Hebrew and English words *Genesis-Moshe 1* Mark Pitrone,2021-07-01 You are holding the author s notes on the book of Genesis as he has taught it for more than fifteen years on succeeding Sabbaths and on various venues both brick and mortar and online Some men have made a mess of what Eloheinu our God revealed to the patriarchs and prophets both Old and New Testaments translating it with the biases of their rabbis or pastors or denominations Mark is attempting he even succeeds once in a while to understand it and teach it as close to El s God s original intent as he can get by eliminating those doctrinal biases For instance God nailed the Law to the cross There were exactly two things nailed to the Roman torture stake What were they Hint One was Yeshua or Jesus Matthew 27 37 Mark 15 26 Luke 23 38 John 19 19 look these up and then think If that teaser intrigues you see what Moshe Moses has to say in Genesis There s a lot more than just what s written on the page *Lectures on Torah and Modern Physics (the Lectures in Kabbalah Series)* Rabbi Yitzchak Ginsburgh,2013-04-28 Modern physics has forever changed the way we view and understand physical reality With a wide spectrum of theories from general relativity to quantum mechanics our conceptions of the very big and the very small are no longer intuitively obvious Many philosophers even scientists have expressed the opinion that the counterintuitive conclusions posited in modern physics are best understood using spiritual terminology In the 11 lectures in this volume Harav Ginsburgh one of our generation s foremost scholars innovators and teachers of Kabbalah reveals how modern physics reflects foundational concepts in the Torah s inner dimension A wide range of topics from relativity special and general quantum mechanics and string theory are addressed Elegantly and gracefully Harav Ginsburgh s exposition of the topics switches back and forth between the scientific and Torah perspectives With his deep insight Harav Ginsburgh gives even well known physical concepts a refreshing and new treatment Apart from carefully drawing parallels and correspondences between the Torah s inner dimension and modern physics in these lectures Harav Ginsburgh proposes new directions for scientific research into important areas such as a unified field theory CPT symmetry the relationship between acceleration and gravitation and the possibility of uncovering additional dimensions in physical reality demonstrating how the Torah s depth can be used to fertilize science and further our understanding of nature
