Seargeant**

The Hidden Agenda Of Platos Politeia:

The Hidden Agenda of Plato's Politeia Arthur F. Hallam,1990 **Notes on Greek Philosophy from Thales to Aristotle** Anthony Preus,1996-12 *The Routledge Handbook of Discourse and Disinformation* Stefania M. Maci,Massimiliano Demata,Mark McGlashan,Philip Seargeant,2023-11-30 This handbook offers a comprehensive overview of research into discourses of disinformation misinformation post truth alternative facts hate speech conspiracy theories and fake news Divided into two sections it provides a detailed look at the methodological challenges and approaches for studying disinformation along with a wide range of case studies covering everything from climate change denial to COVID 19 conspiracies The studies address how discourses of disinformation are constructed and developed what rhetorical and persuasive strategies they employ how disinformation can be discerned from real news and what steps we might take in order to create a more trustworthy news environment Authored by leading experts from around the world and showcasing the most up to date methodological approaches to the topic the volume makes a significant contribution to current linguistic research on politics and is an essential guide to the discourses of disinformation for advanced students and researchers of English language studies linguistics and media and communication studies **Publishers Directory** ,1994 Subject Guide to Books in Print ,1991 *Plato's Pigs and Other Ruminations* M. D. Usher,2020-10-15 A pioneering original work of synthesis that traces modern ideas about systems science and sustainable living back to Classical antiquity **The Power of Reason** Lyndon LaRouche, In this first autobiography written in 1979 Lyndon LaRouche discusses the processes by which he came to make revolutionary discoveries in physical economy and history how he tested his discoveries against the failing authorities of his time and how he set about to build an organization to spread the truthful methodology he developed across civilization as a whole Mr LaRouche has written many books detailing his proposals for development of civilization from Earth outward to the planets but this book gives extraordinary insight into how he came to make his discoveries and how he decided upon the unique course of action which now is reflected in the adoption of many of his proposals by a majority of the world s nation states **Peace Education** James Page,2008-09-01 Peace education is now well recognized within international legal instruments and within critical educational literature as an important aspect of education Despite this little attention has been given in the critical literature to the philosophical foundations for peace education and the rationale for peace education thus remains substantially an assumed one This investigation explores some possible ethico philosophical foundations for peace education through an examination of five specific ethical traditions 1 virtue ethics whereby peace may be interpreted as a virtue and or virtue is interpreted as peacefulness and peace education as education in that virtue 2 consequentialist ethics whereby peace education may be interpreted as education regarding the consequences of our action and inaction both as individuals and collectivities 3 conservative political ethics whereby peace education may be interpreted as emphasizing the importance of the evolution of social institutions and the importance of ordered and lawful social change

4 aesthetic ethics whereby peace may be interpreted as something beautiful and valuable in itself and peace education as emphasizing the importance of that beauty and value and 5 the ethics of care whereby care may be interpreted as a core element in peace and peace education as encouraging trust and engagement with the other The study addresses major contributions to each of these ethical traditions the strengths and weaknesses of the tradition and the ways in which the tradition provides support for peace education It is argued in the thesis that each tradition provides only a partial basis for peace education and that ultimately a holistic and integrative understanding is required one that encourages a culture of peace an important addition to the emerging literature on peace education and the culture of peace From the Foreword by Koichiro Matsuura Director General of UNESCO **American Book Publishing Record** ,1990 *Jacques Ranciere and the Contemporary Scene* Jean-Philippe Deranty, Alison Ross, 2012-02-16 This book forms the first critical study of Jacques Ranciere's impact and contribution to contemporary theoretical and interdisciplinary studies It showcases the work of leading scholars in fields such as political theory history and aesthetic theory each of whom are uniquely situated to engage with the novelty of Ranciere's thinking within their respective fields Each of the essays provides an investigation into the critical stance Ranciere takes towards his contemporaries concentrating on the versatile application of his thought to diverse fields of study including political and education theory cinema studies literary and aesthetic theory and historical studies The aim of this collection is to use the critical interventions Ranciere's writing makes on current topics and themes as a way of offering new critical perspectives on his thought Wielding their individual expertise each contributor assesses his perspectives and positions on thinkers and topics of contemporary importance The edition includes a new essay by Jacques Ranciere which charts the different problems and motivations that have shaped his work
