**The Musical Gift** Jim Sykes, 2018-08-31 The Musical Gift tells Sri Lanka's music history as a story of giving between humans and nonhumans and between populations defined by difference Author Jim Sykes argues that in the recent past the genres we recognize today as Sri Lanka's esteemed traditional musics were not originally about ethnic or religious identity but were gifts to gods and people intended to foster protection and or healing Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war 1983-2009 Sykes argues that the promotion of connected music histories has a role to play in post war reconciliation The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka and it contains a theorization of the relations between musical gifts and commodities Eschewing a binary between the gift and identity Sykes claims the world's music history is largely a story of entanglement between both paradigms Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years including the first study of Sinhala Buddhist drumming in English and the first ethnography of music making in the former war zones of the north and east this book brings anthropology's canonic literature on the gift into music studies while drawing on anthropology's recent ontological turn and the new materialism in religious studies

**The Self Possessed** Frederick M. Smith, 2006 The Self Possessed is a multifaceted diachronic study reconsidering the very nature of religion in South Asia the culmination of years of intensive research Frederick M Smith proposes that positive oracular or ecstatic possession is the most common form of spiritual expression in India and that it has been linguistically distinguished from negative disease producing possession for thousands

of years In South Asia possession has always been broader and more diverse than in the West where it has been almost entirely characterized as demonic At best spirit possession has been regarded as a medically treatable psychological ailment and at worst as a condition that requires exorcism or punishment In South and East Asia ecstatic or oracular possession has been widely practiced throughout history occupying a position of respect in early and recent Hinduism and in certain forms of Buddhism Smith analyzes Indic literature from all ages the earliest Vedic texts the Mahabharata Buddhist Jain Yogic Ayurvedic and Tantric texts Hindu devotional literature Sanskrit drama and narrative literature and more than a hundred ethnographies He identifies several forms of possession including festival initiatory oracular and devotional and demonstrates their multivocality within a wide range of sects and religious identities Possession is common among both men and women and is practiced by members of all social and caste strata Smith theorizes on notions of embodiment disembodiment selfhood personal identity and other key issues through the prism of possession redefining the relationship between Sanskritic and vernacular culture and between elite and popular religion Smith s study is also comparative introducing considerable material from Tibet classical China modern America and elsewhere Brilliant and persuasive *The Self Possessed* provides careful new translations of rare material and is the most comprehensive study in any language on this subject *GRADIVA JOURNAL OF CONTEMPORARY THEORY AND PRACTICE* ,2000 **Amiable Incoherence** Mark P.
