 Scott, 2007-11-19 *Rethinking Evolution in the Museum* explores the ways diverse natural history museum audiences imagine  
 their evolutionary heritage In particular the book considers how the meanings constructed by audiences of museum  
 exhibitions are a product of dynamic interplay between museum iconography and powerful images museum visitors bring  
 with them to the museum In doing so the book illustrates how the preconceived images held by museum audiences about  
 anthropology Africa and the museum itself strongly impact the human origins exhibition experience Although museological  
 theory has come increasingly to recognize that museum audiences make meaning in exhibitions or make their own complex  
 interpretations of museum exhibitions few scholars have explicitly asked how *Rethinking Evolution in the Museum* however  
 provides a rare window into visitor perceptions at four world class museums the Natural History Museum and Horniman  
 Museum in London the National Museums of Kenya in Nairobi and the American Museum of Natural History in New York  
 Through rigorous and novel mixed methods quantitative and qualitative covering nearly 500 museum visitors this innovative  
 study shows that audiences of human origins exhibitions interpret evolution exhibitions through a profoundly complex  
 convergence of personal political intellectual emotional and cultural interpretive strategies This book also reveals that  
 natural history museum visitors often respond to museum exhibitions similarly because they use common cultural tools  
 picked up from globalized popular media circulating outside of the museum One tool of particular interest is the notion that  
 human evolution has proceeded linearly from a bestial African prehistory to a civilized European present Despite critical  
 growths in anthropological science and museum displays the outdated Victorian progress motif lingers persistently in popular  
 media and the popular imagination *Rethinking Evolution in the Museum* sheds light on our relationship with natural history  
 museums and will be crucial to those people interested in understanding the connection between the visitor the museum and  
 media culture outside of the museum context      *The Skin I'm in* Pat Thomas, CMI, 2003-03 Addressing racial discrimination  
 this title encourages kids to accept and be comfortable with differences of skin color and other racial characteristics among  
 their friends and in themselves Includes a guide for parents with a glossary suggested additional reading and a list of  
 resources      *Mind the Inclusion Gap* Suzy Levy, 2023-05-11 Diversity programmes are everywhere But despite all the  
 intention and focus progress is painfully slow Homophobia transphobia racism and misogyny remain stubbornly pervasive  
 and unfortunately many inclusion programmes do more to create negativity toward the diversity agenda than they do to  
 bring about measurable and lasting change Why isn't change happening more rapidly What are we doing wrong Or better yet

what should we be doing differently if we want to drive different outcomes Although most of us are curious about diversity and some would go so far as to call ourselves allies very few of us are skilled in inclusion In the absence of knowing what to do we double down on being nice and hope that will be enough Unfortunately this optimistic attitude may harm as much as help This book is for anyone who wants to dive into the complex task of supporting diversity and increasing inclusion It is filled with insight and practical know how It will help you navigate the polarised and divisive issues we face and move beyond just talking about diversity to playing an active role in shaping an inclusive future

Muslims in Prison J. Beckford, D. Joly, F. Khosrokhavar, 2016-01-12 The growth of Islam in Europe is reflected in the increasing numbers of Muslims in British and French prisons but authorities have responded differently to the challenges presented by Muslim prisoners in each country The findings of three years of intensive research in a variety of prisons show that British prisons facilitate and control the practice of Islam whereas French prisons discourage it and thereby sow the seeds of extremism The policy implications of these ironic findings are examined in detail
