Tritle,2000-03-30 From Melos to My Lai presents an erudite provocative and moving analysis of the accounts of violence in the literature and history of ancient Greece and in the film literature and veterans accounts of the Vietnam War This comparative investigation examines the nature of violence its impact on society and culture especially as reflected from th Airborne Landing to Air Assault Nikolaos Theotokis,2020-07-30 Many books have been written about military parachuting in particular about famous parachute operations like Crete and Arnhem in the Second World War and notable parachute units like the British Parachute Regiment and the US 101st Airborne Division but no previous book has covered the entire history of the use of the parachute in warfare That is why Nikolaos Theotokis s study is so valuable He traces in vivid detail the development of parachuting over the last hundred years and describes how it became a standard tactic in twentieth century conflicts As well as depicting a series of historic parachute operations all over the world he recognizes the role of airmen in the story for they were the first to use the parachute in warfare when they jumped from crippled aeroplanes in combat conditions Adapting the parachute for military purposes occurred with extraordinary speed during the First World War and by the time of the Second World War it had become an established technique for special operations and offensive actions on a large scale The range of parachute drops and parachute led attacks was remarkable and all the most dramatic examples from the world wars and lesser conflicts are recounted in this graphic and detailed study The role played by parachute troops as elite infantry is also a vital part of the narrative as is the way in which techniques of air assault have evolved since the 1970s **Congressional Record** United States. Parker,2024-12-07 In a realm where the whisper of leaves carries ancient secrets and power flows through the earth's roots a new ruler rises from the shadows of the forest Here in a kingdom forged from the wilderness itself alliances are as fleeting as the morning mist and survival demands more than mere strength With a deep connection to the mystical forces of the forest our hero must tread the dangerous path to sovereignty balance the delicate politics of rival clans and master the raw untamed magic that permeates the land In the midst of battles that reshape the fabric of nature a dynasty is born of resilience and an unwavering will to survive This epic narrative weaves the strands of destiny and power into a story in which every heartbeat is a brushstroke in the great painting of a kingdom's rise **Multimedia Information Extraction** Mark T.

Maybury,2012-07-11 The advent of increasingly large consumer collections of audio e.g. iTunes imagery e.g. Flickr and video e.g. YouTube is driving a need not only for multimedia retrieval but also information extraction from and across media Furthermore industrial and government collections fuel requirements for stock media access media preservation broadcast news retrieval identity management and video surveillance While significant advances have been made in language processing for information extraction from unstructured multilingual text and extraction of objects from imagery and video these advances have been explored in largely independent research communities who have addressed extracting information from single media e.g. text imagery audio And yet users need to search for concepts across individual media author multimedia artifacts and perform multimedia analysis in many domains This collection is intended to serve several purposes including reporting the current state of the art stimulating novel research and encouraging cross fertilization of distinct research disciplines The collection and integration of a common base of intellectual material will provide an invaluable service from which to teach a future generation of cross disciplinary media scientists and engineers **Air University**
