**Incarceration and Slavery in the Middle Ages and the Early Modern Age** Albrecht Classen, 2021-10-19 People in the Middle Ages and the early modern age more often suffered from imprisonment and enslavement than we might have assumed Incarceration and Slavery in the Middle Ages and the Early Modern Age approaches these topics from a wide variety of perspectives and demonstrates collectively the great relevance of the issues involved Both incarceration and slavery were and continue to be most painful experiences and no one was guaranteed exemption from it High ranking nobles and royalties were often the victims of imprisonment and at times had to wait many years until their ransom was paid Similarly slavery existed throughout Christian Europe and in the Arab world However while imprisonment occasionally proved to be the catalyst for major writings and creativity slaves in the Ottoman empire and in Egypt succeeded in rising to the highest position in society Janissaries Mamluks and others

**Slaves and Warriors in Medieval Britain and Ireland** David R. Wyatt, 2009 Modern sensibilities have clouded historical views of slavery perhaps more so than any other medieval social institution Anachronistic economic rationales and notions about the progression of European civilisation have immeasurably distorted our view of slavery in the medieval context As a result historians have focussed their efforts upon explaining the disappearance of this medieval institution rather than seeking to understand it This book highlights the extreme cultural social significance of slavery for the societies of medieval Britain and Ireland c 800 1200 Concentrating upon the lifestyle attitudes and motivations of the slave holders and slave raiders it explores the violent activities and behavioural codes of Britain and Ireland's warrior centred

societies illustrating the extreme significance of the institution of slavery for constructions of power ethnic identity and gender

**Scandinavia in the Age of Vikings** Jon Vidar Sigurdsson, 2022-03-15 In *Scandinavia in the Age of Vikings* Jon Vidar Sigurdsson returns to the Viking homeland Scandinavia highlighting such key aspects of Viking life as power and politics social and kinship networks gifts and feasting religious beliefs women's roles social classes and the Viking economy which included farming iron mining and metalworking and trade Drawing of the latest archeological research and on literary sources namely the sagas Sigurdsson depicts a complex and surprisingly peaceful society that belies the popular image of Norsemen as bloodthirsty barbarians Instead Vikings often acted out power struggles symbolically with local chieftains competing with each other through displays of wealth in the form of great feasts and gifts rather than arms At home conspicuous consumption was a Viking leader's most important virtue the brutality associated with them was largely wreaked abroad Sigurdsson's engaging history of the Vikings at home begins by highlighting political developments in the region detailing how Danish kings assumed ascendancy over the region and the ways in which Viking friendship reinforced regional peace *Scandinavia in the Age of Vikings* then discusses the importance of religion first pagan and beginning around 1000 A.D. Christianity the central role that women played in politics and war and how the enormous wealth brought back to Scandinavia affected the social fabric shedding new light on Viking society

**Freedom, Imprisonment, and Slavery in the Pre-Modern World** Albrecht Classen, 2021-04-19 Contrary to common assumptions medieval and early modern writers and poets often addressed the high value of freedom whether we think of such fable authors as Marie de France or Ulrich Bonerius Similarly medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence Nevertheless as this study illustrates throughout the pre-modern period the loss of freedom could happen quite easily affecting high and low including kings and princes and there are many literary texts and historical documents that address the problems of imprisonment and even enslavement Georgius of Hungary Johann Schiltberger Hans Ulrich Krafft etc Simultaneously philosophers and theologians discussed intensively the fundamental question regarding free will e.g. Augustine and political freedom e.g. John of Salisbury Moreover quite a large number of major pre-modern poets spent a long time in prison where they composed some of their major works Boethius Marco Polo Charles d'Orléans Thomas Malory etc This book brings to light a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom imprisonment and enslavement Prof. Albrecht Classen is the joint winner of The Literary Encyclopedia book prize for 2023 Literatures written in languages other than English for this book [https://www.litencyc.com/book/prizes/book\\_prizes\\_2023.php](https://www.litencyc.com/book/prizes/book_prizes_2023.php)

**Slave trading in the Early Middle Ages** Janel M. Fontaine, 2025-02-18 This book examines slave trading in northern and eastern central Europe from the seventh century through the eleventh century tracing its growth climax and decline Demand from the Islamic world in the ninth and tenth centuries prompted changes in warfare trade logistics and administrative responses to slavery in the slaving zones centred on the British Isles and the Czech

lands This study establishes slave trading as a core driver of connectivity and presents a model for this practice in politically fragmented areas of Europe

**The Cambridge World History of Slavery: Volume 2, AD 500-AD 1420** Craig Perry, David Eltis, Stanley L. Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people

Unmarriages Ruth Mazo Karras, 2012-03-19 The Middle Ages are often viewed as a repository of tradition yet what we think of as traditional marriage was far from the only available alternative to the single state in medieval Europe Many people lived together in long term quasimarital heterosexual relationships unable to marry if one was in holy orders or if the partners were of different religions Social norms militated against the marriage of master to slave or between individuals of very different classes or when the couple was so poor that they could not establish an independent household Such unions where the protections that medieval law furnished to wives and their children were absent were fraught with danger for women in particular but they also provided a degree of flexibility and demonstrate the adaptability of social customs in the face of slowly changing religious doctrine Unmarriages draws on a wide range of sources from across Europe and the entire medieval millennium in order to investigate structures and relations that medieval authors and record keepers did not address directly either in order to minimize them or because they were so common as not to be worth mentioning Ruth Mazo Karras pays particular attention to the ways women and men experienced forms of opposite sex union differently and to the implications for power relations between the genders She treats legal and theological discussions that applied to all of Europe and presents a vivid series of case studies of how unions operated in specific circumstances to illustrate concretely what we can conclude how far we can speculate and what we can never know

*Slavery and Islam* Jonathan A.C. Brown, 2020-03-05 What happens when authorities you venerate condone something you know is wrong Every major religion and philosophy once condoned or approved of slavery but in modern times nothing is seen as more evil Americans confront this crisis of authority when they erect statues of Founding Fathers who slept with their slaves And Muslims faced it when ISIS revived sex slavery justifying it with verses from the Quran and the practice of Muhammad Exploring the moral and ultimately theological problem of slavery Jonathan A C Brown traces how the Christian Jewish and Islamic traditions have tried to reconcile modern moral certainties

with the infallibility of God's message He lays out how Islam viewed slavery in theory and the reality of how it was practiced across Islamic civilization Finally Brown carefully examines arguments put forward by Muslims for the abolition of slavery

**Queering the Middle Ages** Glenn Burger, Steven F. Kruger, 2001 The essays in this volume present new work that in one way or another queers stabilized conceptions of the Middle Ages allowing us to see the period and its systems of sexuality in radically different off center and revealing ways While not denying the force of gender and sexual norms the authors consider how historical work has written out or over what might have been non normative in medieval sex and culture and they work to restore a sense of such instabilities At the same time they ask how this pursuit might allow us not only to re envision medieval studies but also to rethink how we study culture from our current set of vantage points within postmodernity The authors focus on particular medieval moments Christine de Pizan's representation of female sexuality chastity in the Grail romances the illustration of the sodomite in manuscript commentaries on Dante's Commedia the complex ways that sexuality inflected English national politics at the time of Edward II's deposition the construction of the sodomitic Moor by Reconquista Spain Throughout their work seeks to disturb a logic that sees the past as significant only insofar as it may make sense for and of a stabilized present

Enslavement Orlando Patterson, 2024-11-05 Slavery is one of humanity's most ancient and persistent inequities It predates the rise of civilization played a key role in the growth of Western and Islamic cultures and was an integral part of the emergence and global spread of capitalism Given its historical significance it is not surprising that the problem of slavery is still passionately debated today and that modern day trafficking and forced servitude remain key issues of public concern In Enslavement Past and Present historical sociologist Orlando Patterson casts a wide net to examine the social political and economic complexities of slavery across different eras and societies Patterson examines slavery at several levels of abstraction from micro level relations of domination to the macro structures of entire societies Building on the bundle of rights perspective he reevaluates the definition of slavery exposing its variegated fabric of iniquities across tribal and advanced pre modern societies as well as our modern globalized age Patterson also examines the critical role of women in the history of slavery the significance of manumission in the formation of Christian doctrine and the devastating toll of genocide and undaunted revolt of slaves in Jamaican slave society Concluding with an investigation of contemporary slavery and other forms of servitude this book urges readers to reckon with the brutal legacies of the past and its alarming modern day persistence Enslavement Past and Present deepens our understanding of the broad spectrum of evil and human bondage throughout history an understanding that is essential for contemporary struggles to build a more inclusive society for all

Gender and Protest Frank Jacob, Jowan A. Mohammed, 2023-09-05 For centuries women and other gendered minorities had to protest to gain equality Their demands were often matched by counter protest from conservative forces within historical societies that intended to return to old orders or good old times The present volume will take a closer look at the interrelationship between gender and protest and analyze in detail how

gender related perspectives stimulated protests and initiated historical changes Through historical case studies that range from antiquity until modern times specialists from different countries and disciplines discuss reasons for protest gender as a factor that stimulated social conflicts and the power of gendered protests of the past with regards to their impact and long term impact until today

**White Slavery in Colonial America: and Other Documented Facts Suppressed From the Public Know ,** Understanding the Middle Ages Harald Kleinschmidt,2000 Illustrations and narrative work together in this book to present medieval culture as one visual image Drawing extensively from a wide range of primary source material the breadth and originality of Kleinschmidt s study will have an important influence on scholarly perception of the middle ages as a period of continual change and continually changing attitudes BOOK JACKET

*Singlewomen in the European Past, 1250-1800* Judith M. Bennett,Amy M. Froide,2013-02-01 When we think about the European past we tend to imagine villages towns and cities populated by conventional families married couples and their children Although most people did marry and pass many of their adult years in the company of a spouse this vision of a preindustrial Europe shaped by heterosexual marriage deceptively hides the well established fact that in some times and places as many as twenty five percent of women and men remained single throughout their lives Despite the significant number of never married lay women in medieval and early modern Europe the study of their role and position in that society has been largely neglected *Singlewomen in the European Past* opens up this group for further investigation It is not only the first book to highlight the important minority of women who never married but also the first to address the critical matter of differences among women from the perspective of marital status Essays by leading scholars among them Maryanne Kowaleski Margaret Hunt Ruth Mazo Karras Susan Mosher Stuard Roberta Krueger and Merry Wiesner deal with topics including the sexual and emotional relationships of singlewomen the economic issues and employment opportunities facing them the differences between the lives of widows and singlewomen the conflation of singlewomen and prostitutes and the problem of female slavery The chapters both illustrate the roles open to the singlewoman in the thirteenth through eighteenth centuries and raise new perspectives about the experiences of singlewomen in earlier times
