Slavery in South Carolina and the Ex-slaves Mrs. A. M. French,1862 *Slavery in South Carolina and the Ex-Slaves, Or the Port Royal Mission (Classic Reprint)* Mrs. A. M. French,2016-09-09 Excerpt from *Slavery in South Carolina and the Ex Slaves or the Port Royal Mission* Surely there is a line of right somewhere surely there are principles of right necessarily eternal since God is surely these principles cannot change surely circumstances cannot reach or affect them surely there must be laws enforcing those principles surely as the principles are eternal the laws cannot change surely they must have the strength of the Administration as a pledge of their execution surely they must respect all beings alike must apply to the minutest action Surely then every action must be with or against those laws must compel their eternal approval or penalty every action calling upon the laws of eternal justice for the well done or the penalty Surely that award must be as eternal as the sin and those laws Surely a Mediator makes no escape from them He is not the minister of sin He only makes obedience possible to us He establishes the law dies That we be forgiven cleared of its past records cleansed and compelled to break it no more through the power that death provides All this adds awful weight and dignity to that law renders disobedience an eternal insult not only to the law but to that Mediator that tenderest grace that costliest sacrifice So that disobedience is an insult not only to the law which cannot forgive overlook or fail in penalty but to that grace that death that offering of soul for sin Surely then God his law his sacrifice cannot be slighted without full penalty Surely that penalty must be exacted alike of each rational being Man must be left free to break that law else no free obedience could he render from his not being free or able to disobey Evidently when he knows that there is grace provided for him and offered freely and available he is alone responsible for having that grace About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Slavery in South Carolina and the Ex-Slaves](#),2020-03-07 [Slavery in South Carolina and the Ex-slaves](#) A. builds on classic scholarship to present not a historical narrative but a study of what is now called development and nation building The Port Royal Experiment was a joint governmental and private effort begun during the Civil War to transition former slaves to freedom and self sufficiency Port Royal Harbor and the Sea Islands off the coast of South Carolina were liberated by Union Troops in 1861 As the Federal advance began the white plantation owners and residents fled abandoning approximately 10 000 black slaves Several private Northern charity organizations stepped in to help the former slaves become self sufficient Nonetheless the Point Royal Experiment was only a mixed success and was contested by efforts to restore the status quo of white dominance Return to home rule then undid much of what the experiment accomplished While the concept of development is subject to a range of interpretations in this context it means positive continuously improving and sustained change across a variety of human social conditions Clearly such an effort was at the heart of the Port Royal Experiment While the term nation building may seem misplaced given that no nation was the beneficiary of these efforts the requirement to build institutions critical to nation building operations was certainly a large part of the Port Royal Experiment and offers many lessons for modern efforts at nation building The Port Royal Experiment divides into ten chapters each of which is designed to treat a particular aspect of the experience Topics include planning considerations philanthropic society activity civil society economic development political development and resistance Each chapter presents the case study in the context of more recent developmental and nation building efforts in such places as Bosnia Somalia Kosovo Iraq and Afghanistan and incorporates recent scholarship in the field Modern readers will see that the challenges that faced the Port Royal Experiment remain relevant even as their solutions remain elusive

Women's Radical Reconstruction Carol Faulkner, 2013-04-19 In this first critical study of female abolitionists and feminists in the freedmen s aid movement Carol Faulkner describes these women s radical view of former slaves and the nation s responsibility to them Moving beyond the image of the Yankee schoolmarm Women s Radical Reconstruction demonstrates fully the complex and dynamic part played by Northern women in the design implementation and administration of Reconstruction policy This absorbing account illustrates how these activists approached women s rights the treatment of freed slaves and the federal government s role in reorganizing Southern life Like Radical Republicans black and white women studied here advocated land reform political and civil rights and an activist federal government They worked closely with the military the Freedmen s Bureau and Northern aid societies to provide food clothes housing education and employment to former slaves These abolitionist feminists embraced the Freedmen s Bureau seeing it as both a shield for freedpeople and a vehicle for women s rights But Faulkner rebuts historians who depict a community united by faith in free labor ideology describing a movement torn by internal tensions The author explores how gender conventions undermined women s efforts as military personnel and many male reformers saw female reformers as encroaching on their territory threatening their vision of a wage labor economy and impeding the economic independence of former slaves She notes the opportunities afforded to some middle class black

women while also acknowledging the difficult ground they occupied between freed slaves and whites Through compelling individual examples she traces how female reformers found their commitment to gender solidarity across racial lines tested in the face of disagreements regarding the benefits of charity and the merits of paid employment *Disciples of All Nations* Lamin O. Peterson, 2014-10-15 No living scholar has shaped the study of American religious history more profoundly than George M. Marsden His work spans U S intellectual cultural and religious history from the seventeenth through the twenty first centuries This collection of essays uses the career of George M. Marsden and the remarkable breadth of his scholarship to measure current trends in the historical study of American evangelical Protestantism and to encourage fresh scholarly investigation of this faith tradition as it has developed between the eighteenth century and the present Moving through five sections each centered around one of Marsden's major books and the time period it represents the volume explores different methodologies and approaches to the history of evangelicalism and American religion Besides assessing Marsden's illustrious works on their own terms this collection's contributors isolate several key themes as deserving of fresh rigorous and extensive examination Through their close investigation of these particular themes they expand the range of characters and communities issues and ideas and contingencies that can and should be accounted for in our historical texts Marsden's timeless scholarship thus serves as a launchpad for new directions in our rendering of the American religious past

Unburdened by Conscience Anthony W. Neal, 2010 This book argues that influential historians have been unable to offer a complete account of ante bellum era American slavery because of their preoccupation with humanizing the slaveholders Neal skillfully weaves together candid first hand accounts of courageous ex slaves permitting readers to see slavery in the United States from their point of view *The Political Work of Northern Women Writers and the Civil War, 1850-1872* Lyde Cullen Sizer, 2003-06-19 This volume explores the lives and works of nine Northern women who wrote during the Civil War period examining the ways in which through their writing they engaged in the national debates of the time Lyde Sizer shows that from the 1850 publication of Uncle Tom's Cabin through Reconstruction these women as well as a larger mosaic of lesser known writers used their mainstream writings publicly to make sense of war womanhood Union slavery republicanism heroism and death Among the authors discussed are Lydia Maria Child Harriet Beecher Stowe Sara Willis Parton Fanny Fern Frances Ellen Watkins Harper Mrs E D E N Southworth Mary Abigail Dodge Gail Hamilton Louisa May Alcott Rebecca Harding Davis and Elizabeth Stuart Phelps Although direct political or partisan power was denied to women these writers actively participated in discussions of national issues through their sentimental novels short stories

in depth study of black education in Southern public schools and universities during the twelve year Reconstruction period which followed the Civil War In the antebellum South the teaching of African Americans was sporadic and usually in contravention to state laws During the war Northern religious and philanthropic organizations initiated efforts to educate slaves The army and later the Freedmen s Bureau became actively involved in freed men s education By 1870 however a shortage of funds for the work forced the bureau to cease its work at which time the states took over control of the African American schools In an extensive study of records from the period William Preston Vaughn traces the development the successes as well as the failures of the early attempts of the states to promote education for African Americans and in some instances to establish integration While public schools in the South were not an innovation of Reconstruction their revitalization and provision to both races were among the most important achievements of the period despite the pressure from whites in most areas which forced the establishment of segregated education Despite the ultimate failure to establish an integrated public school system anywhere in the South many positive achievements were attained Although the idealism of the political Reconstructionists fell short of its immediate goals in the realm of public education precedents were established for integrated schools and the constitutional revisions achieved through the Fourteenth and Fifteenth amendments laid the groundwork for subsequent successful assaults on segregated education
