remoteness of their mountain retreat the herders of Chillihuani Peru recognize that respect for others is the central and most significant element of all thought and action observes Inge Bolin Without respect no society no civilization can flourish for long Without respect humanity is doomed and so is the earth sustainer of all life In this beautifully written ethnography Bolin describes the rituals of respect that maintain harmonious relations among people the natural world and the realm of the gods in an isolated Andean community of llama and alpaca herders that reaches up to 16 500 feet Bolin was the first foreigner to visit Chillihuani and she was permitted to participate in private family rituals as well as public ceremonies In turn she allows the villagers to explain the meaning of their rituals in their own words From these first hand experiences Bolin offers an intimate portrait of an annual ritual cycle that dates back to Inca and pre Inca times including the ancient Pukllay weddings the Fiesta de Santiago with its horse races on the top of the world and Peru s Independence Day when the Rituals of Respect for elders and young people alike are carried out within male and female hierarchies reminiscent of Inca times **Growing**

**Up in a Culture of Respect** Inge Bolin, 2010-01-01 Far from the mainstream of society the pastoral community of Chillihuani in the high Peruvian Andes rears children who are well adjusted creative and curious They exhibit superior social and cognitive skills and maintain an attitude of respect for all life as they progress smoothly from childhood to adulthood without a troubled adolescence What makes such child rearing success even more remarkable is that childhood is not recognized as a distinct phase of life Instead children assume adult rights and responsibilities at an early age in order to help the community survive in a rugged natural environment and utter material poverty This beautifully written ethnography provides the first full account of child rearing practices in the high Peruvian Andes Inge Bolin traces children s lives from birth to adulthood and finds truly amazing strategies of child rearing as well as impressive ways of living that allow teenagers

to enjoy the adolescent stage of their lives while contributing significantly to the welfare of their families and the community Throughout her discussion Bolin demonstrates that traditional practices of respect whose roots reach back to pre Columbian times are what enable the children of the high Andes to mature into dignified resilient and caring adults **The Journal for Weavers, Spinners & Dyers** ,1986 Images of Women in Peace and War Sharon Macdonald,Pat Holden,Shirley Ardener,1988 As warriors freedom fighters and victims as mothers wives and prostitutes and as creators and members of peace movements women are inevitably caught up in the net of war Yet women s participation in warfare and peace campaigns has often been underestimated or ignored Images of Women in Peace and War explores women s relationships to war peace and revolution from the Amazons Inka and Boadicea to women soldiers in South Africa Mau Mau freedom fighters and the protestors at Greenham Common The contributors consider not only the reality of women s participation but also look at how their actions have been perceived and represented across cultures and through history They examine how sexual imagery is constructed how it is used to delineate women s relation to warfare and how these images have sometimes been subverted in order to challenge the status quo The book raises important questions about whether women have a special prerogative to promote peace and considers whether the experience of motherhood leads to a distinctive women s position on war The authors find that their analyses lead them to deal with arguments on the basic nature of the sexes and to reevaluate our concepts of peace war and gender Andean Art at Dumbarton Oaks Dumbarton Oaks,1996 Andean Art at Dumbarton Oaks presents the Andean portion of the Robert Woods Bliss Collection of Pre Columbian Art It superbly illustrates all 133 Andean objects in color plates and includes many complementary and comparative black and white illustrations and drawings The body of Pre Columbian art that Robert Bliss carefully assembled over a half century between 1912 and 1963 and which has been amplified slightly since his death is a remarkably significant collection These works of art are among the finest examples of the visual arts produced by Andean cultures Andean Art is composed of five topical essays shorter essays on the Andean cultures represented in the collection and discussions of the individual objects These were written by specialists in Pre Columbian art presenting the latest in scholarly thinking on Andean cultures and the objects All thirteen authors bring broad perspectives from Andean culture history archaeology and art history to their contributions but they focus their attentions primarily on the objects themselves in order to provide meaningful contexts for them and to highlight how these objects as works of art created and used purposefully reveal special qualities of Andean culture The reader is provided with a fine sense of how the creators and original owners of the pieces in the Bliss collection used and valued these artworks on many levels The authors also place individual objets alongside others of their type in so far as possible An extraordinary feature of this volume is the technical descriptions of the metal objects provided by metals specialist Heather Lechtman Dumbarton Oaks Research Library and Collection website **Shuttle, Spindle & Dyepot** ,1981 **The Weaver's Journal** ,1985 *America's Vanished Metalsmiths* Museo Chileno de Arte Precolombino,Banco O'Higgins,1991 Cintas Mayas
