

The Global Economy in 2050

Here's how global GDP will be distributed in 2050, according to projections from Goldman Sachs.

Real GDP in 2050 (USD trillions)

Developed Markets

Developed markets will no longer represent the largest share of real GDP by 2050, being surpassed sometime in the mid 2040s.

Asia (ex DM)

China's real GDP growth will taper off significantly by 2050, but countries like India, Bangladesh, and the Philippines will remain above 3% annually.

Small Business Agenda Trends In A Global Economy:

A Small Business Agenda Galen Hull, 1986 Offering an approach to the problems faced by development countries this book demonstrates that a policy that encourages an active small business sector in these countries may be the most productive form of international development assistance

Business America, 1986 Includes articles on international business opportunities

Transnational Business Galen Spencer Hull, 2022-03-26 First Published in 1999 Small Businesses Trickling Up in Central and Eastern Europe argues that micro small and medium sized enterprises in selected countries of Central and Eastern Europe CEE have been the key to economic growth rather than privatized large scale enterprises Small businesses have come to constitute the most dynamic element of growth in the emerging markets of the CEE region in the last decade In 1989 most of the countries of the region were still under the political and economic domination of the Soviet Union Since then a process of liberalization has been unleashed in the region to dismantle statist economic policies and replace them with free market policies This has involved programs of privatization and restructuring of state owned enterprises as well as the promotion of policies to enable a private sector to develop Small businesses are creating thousands of new jobs while large companies are retrenching and downsizing their workforce In some countries of the region this process is much further along than in others In each country however the small and medium enterprise SME sector has developed at a more rapid pace than has the privatization of the large public companies The privatization of small and medium sized state owned enterprises has been rather more successful With the economic transition there has been a flurry of new enterprises springing up throughout the region some registered as legal entities but many micro enterprises often remaining unregistered in the informal sector Micro enterprises are increasingly seen as an important element of this SME sector although they were traditionally treated separately as belonging to the informal sector and a detriment to economic growth
