Beyond the Yellow Tape: Life & Death on the Streets of DC Curtis E Mozie, 2012-01-19 Curtis Mozie, known on the streets as C Webb, is without a doubt a leader in Washington DC. He spends every waking moment trying to prevent gangs and gun violence on the streets of DC. With the creation of Tale of the Tape Foundation, Curtis produces films that document the lives and deaths of 65 of his friends murdered by gun violence. He has been a catalyst for positive change for over twenty years, earning the trust of both police officers and gang members, having been a police officer himself. It's incredible that gangs have allowed him to intimately explore their violent and brutal world. His video camera captures their day-to-day lives playing basketball and also their candidness in interviews at his apartment, which is known as the Safe House, a place where at-risk youth come to be mentored on life skills and to have someone hear their problems and concerns. When one of them gets killed or injured in gang violence, Curtis is there to mourn the loss with family members. He then creates a montage of their lives and deaths in a video tribute. Lessons learned, Curtis, without a doubt, is a unique individual, a community hero for DC. Mothers and Fathers, he's appeared on numerous news media outlets across the world. His message is an unfaltering dedication and commitment to making the streets of DC safer for everyone. He now works at the Kennedy Recreation Center for the Department of Parks and Recreation, working with youth and serving the community.

Life and Death and Cricket Sherin Nair, 2015-07-29 **House of Life & Death** Vann Chow, Embark on an enthralling odyssey through the enigmatic realms of the afterlife in The House of Life, where the ethereal and echoes of European colonial history converge in the East. Each year on July 7th in the lunar calendar, the Gates of Hell swing open, granting ghosts a respite from their infernal torments for seven days. The living have dubbed this period the Yulan Festival, a time when spectral beings freely roam the earthly realm. In response to this supernatural occurrence, ingenious citizens of Hong Kong have honed their strategies to navigate these spectral encounters. The House of Life, a venerable Chinese pharmacy under the stewardship of a philanthropic luminary, Master Physician, graciously welcomes hungry ghosts within its walls. Here, an opulent banquet of food, wine, and medicines serves as a diversion to appease these otherworldly visitors. In a fateful twist of fate, Elise, an ordinary city girl, meets her tragic end in a harrowing traffic accident that same night and was brought to the House of Life. Her arrival coincides with a tumultuous raid of the House by Manchurian warlords. It was unclear what they sought, but Elise's presence had something to do with it. And thus, this commences her unforgettable journey through the afterlife to save the poor souls that dwell in the House. Join Elise as she unravels the mysteries veiled between the realms of existence and transcendence amidst a tapestry woven with magic, mythical creatures, and age-old folklore against the vibrant backdrop of Eastern history as she traverses a world teeming with peril and marvels.

Berlin: Life and Death in the City at the Center of the World Sinclair McKay,2022-08-23 Sinclair McKay s portrait of Berlin from 1919 forward explores the city s broad human history from the end of the Great War to the Blockade rise of the Wall and beyond Sinclair McKay s Berlin begins by taking readers back to 1919 when the city emerged from the shadows of the Great War to become an extraordinary by word for modernity in art cinema architecture industry science and politics He traces the city s history through the rise of Hitler and the Battle for Berlin which ended in the final conquest of the city in 1945 It was a key moment in modern world history but beyond the global repercussions lay thousands of individual stories of agony From the countless women who

endured nightmare ordeals at the hands of the Soviet soldiers to the teenage boys fitted with steel helmets too big for their heads and guns too big for their hands McKay thrusts readers into the human cataclysm that tore down the modernity of the streets and reduced what was once the most sophisticated city on earth to ruins Amid the destruction a collective instinct was also at work a determination to restore not just the rhythms of urban life but also its fierce creativity In Berlin today there is a growing and urgent recognition that the testimonies of the ordinary citizens from 1919 forward should be given more prominence That the housewives office clerks factory workers and exuberant teenagers who witnessed these years of terrifying and for some initially exhilarating transformation should be heard Today the exciting youthful Berlin we see is patterned with echoes that lean back into that terrible vortex In this new history of Berlin Sinclair McKay erases the lines between the generations of Berliners making their voices heard again to create a compelling living portrait of life in this city that lay at the center of the world

Fuller,Ryan Moore,2017-07-05 Despite having no formal training in urban planning Jane Jacobs deftly explores the strengths and weaknesses of policy arguments put forward by American urban planners in the era after World War II They believed that the efficient movement of cars was of more value in the development of US cities than the everyday lives of the people living there By carefully examining their relevance in her 1961 book *The Death and Life of Great American Cities* Jacobs dismantles these arguments by highlighting their shortsightedness She evaluates the information to hand and comes to a very different conclusion that urban planners ruin great cities because they don t understand that it is a city s social interaction that makes it great Proposals and policies that are drawn from planning theory do not consider the social dynamics of city life They are in thrall to futuristic fantasies of a modern way of living that bears no relation to reality or to the desires of real people living in real spaces Professionals lobby for separation and standardization splitting commercial residential industrial and cultural spaces But a truly visionary approach to urban planning should incorporate spaces with

mixed uses together with short walkable blocks large concentrations of people and a mix of new and old buildings This creates true urban vitality
