**Faith** Dorothy C. Bass, 2019-03-01 Twelve time honored Christian practices that will help us and the world to flourish Practicing Our Faith offers help to Christians who are asking how our faith can help us discern what we might do and who we might become How can we live faithfully and with integrity in a world where the pace of existence is so fast and life's patterns are changing all around us Can we conduct our daily lives in ways that help us not just get by but flourish as individuals as communities and as a society in concert with creation and in communion with God These questions are on the hearts and minds of many seekers who are exploring spirituality today They are also at the heart of Practicing Our Faith Practices are those shared activities that address fundamental needs of humankind and creation and that woven together form a way of life The twelve practices explored in this book are practices that human beings simply cannot do without

particularly at this time in history This book will stimulate your imagination It will encourage you to reflect It initiates a conversation that will spread into many contexts each of which presents unique opportunities for noticing discussing and living the practices of faith *Sing Loud, Die Happy* Jim Thompson, 2022-08-11 Singing is one of the most repeated commands in Holy Scripture It's right up there with believe and do not fear But commands like these can feel vaguely spiritual intangible or esoteric You might not know if you're doing them right Not so with singing You just open your mouth and make it happen And when we do we often get the sense that God is up to something that he has designed singing to change us But how How does singing do its transformative work Why has God hard wired singing with such power What does Scripture teach us about the gift of song What did the songs of Scripture feel like and sound like Why does singing awaken something so visceral and emotional within us And what are the results of being changed by the power of song Behind all of these questions lies a creative songful God He delights in singing He extends to us a melodic mission He invites us into intimacy with himself and with his people and singing is more essential to the journey than we have yet to believe [Singing Reconciliation: Inhabiting the Moral Life According to Colossians 3:16](#) Amy Whisenand Krall, 2023-10-30 The letter to the Colossians contains a series of moral instructions in Colossians 3:12-17 and includes the admonition to sing among them This study considers how music making specifically singing supports moral formation according to the letter to the Colossians Studies in ethnomusicology anthropology of the voice and music psychology offer useful frameworks for conceptualizing how a social practice like music making forms participants into a community and shapes how they know themselves their community and the world With the aid of these frameworks we find that the singing in Colossians 3:16 as a corporate vocal practice of music making enables the members of the church community to inhabit the story of reconciliation found in the Christ Hymn Col 1:15-20 **Music as Theology** Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to

This Is Not a Fighting Song Meredith Holladay, 2022-10-21 It is through their music that the Indigo Girls build upon the theological idea of community building and solidarity forming in order to tell the stories to relate the authentic experience of human struggle and reconciliation of human love and pain Further they work outward convicted that their music and songwriting is an avenue to speak truth to power All of this serves as theological reflection worked out in public and vocal forms of prophetic denunciation and proclamation Their songs take on this prophetic tone of denunciation speaking against oppression inequality and injustice Moreover their music does not remain complacent in the critique through their songwriting they participate in prophetic proclamation envisioning alternative ways of being contributing to the collective imagination of contexts of equality peace and human freedom

On Our Way Dorothy Bass, Susan Briehl, 2018-02-01 Early adulthood is a time of possibility uncertainty decision and hope During these years individuals determine how they will approach life challenges and opportunities In On Our Way Christian Practices for Living a Whole Life writers from a variety of backgrounds address topics of particular relevance to young adults The essays are grouped in 5 sections that together express the whole living a whole life attentively together in the real world for the good of all in response to God On Our Way looks at common subjects in fresh meaningful ways It presents study for example as not synonymous with reading books or with academic reflection though it may well include these Instead this essay explains study as a particular kind of attending to Christ and the world a particular stance of curiosity vigilance and openness to learning an openness that extends even to unlearning what we have previously learned to take for granted Other chapters explore such subjects as discerning God's call friendship and intimacy care for creation knowing and loving our neighbors of other faiths doing justice As young adults move away from the confines of home school and church youth group this book will serve as an excellent resource While it speaks from a Christian perspective its broad approach makes it appealing both to Christians and to those who consider themselves spiritual but not religious Well suited for individual reading or group discussion On Our Way is an excellent companion for young adults seeking their place in today's world

**The Pursuit of Happiness** Sarah Heaner Lancaster, 2010-12-08 People want to be happy Nothing could be more obvious and yet this common and evident goal is not as easy to achieve as it is to desire The Christian tradition has understood happiness to be gained through relationship with God and it has much to say about what will make us truly happy and what will not This book examines happiness from a Christian perspective using John Wesley as the focus of study because he understood happiness with God to be the very goal of Christian life He also understood that Christian happiness needed to acknowledge the difficulties of life This book seeks to learn from the wisdom of the past in order to imagine how Christians today might talk about happiness in a way that is

faithful to the tradition and engages the world as well      **Learning in a Musical Key** Lisa M. Hess, 2011-09-15 Learning in a Musical Key examines the multidimensional problem of the relationship between music and theological education Lisa Hess argues that in a delightful and baffling way musical learning has the potential to significantly alter and inform our conception of the nature and process of theological learning In exploring this exciting intersection of musical learning and theological training Hess asks two probing questions First What does learning from music in a performative mode require Classical modes of theological education often founder on a dichotomy between theologically musical and educational discourses It is extremely difficult for many to see how the perceived nonmusical learn from music Is musicality a universally human potential In exploring this question Hess turns to the music learning theory of Edwin Gordon which explores music's unique mode of teaching learning its primarily aural oral mode This challenge leads to the study's second question How does a theologian in the disciplinary sense integrate a performative mode into critical discourse Tracking the critical movements of this problem Hess provides an inherited transformational logic as a feasible path for integrating a performative mode into multidimensional learning This approach emerges as a distinctly relational embodied multidimensional and non correlational performative mode theology that breaks new ground in the contemporary theological landscape As an implicitly trinitarian method rooted in the relationality of God this non correlational method offers a practical theological contribution to the discipline of Christian spirituality newly claimed here as a discipline of transformative teaching learning through the highly contextualized and self implicated scholar into relationally formed communities and ultimately into the world      The Routledge Handbook of Christianity and Culture Yaakov Ariel, Gregor Thuswaldner, Jens Zimmermann, 2024-11-15 The centrality and importance of the intersection of Christianity and culture when it comes to English speaking countries and particularly American culture history and politics is beyond doubt The Routledge Handbook of Christianity and Culture is an outstanding reference source to the key topics problems and debates in this exciting subject Comprising over 35 chapters by a team of international contributors the handbook is divided into five parts Practicing Christianity Christianity and the Word Social and Political Aspects of Christianity and Culture Christianity and Culture in a Global Context Christianity and the Arts Within these parts central issues debates and problems are examined including liturgy material Christianity education missions religion and science hermeneutics Bible translations Christian wars human rights law social action the secular ecumenicalism inter religious relations visual arts literature music theatre and film The Routledge Handbook of Christianity and Culture is essential reading for students and researchers of religious studies and Christian studies The handbook will also be very useful for those in related fields such as cultural studies area studies visual studies literature and material religion      *Female Faith Practices* Nicola Slee, Dawn Llewellyn, Kim Wasey, Lindsey Taylor-Guthartz, 2023-08-01 This book explores female faith practices drawing on qualitative research to consider how women navigate and create spiritual and religious practices The chapters cover Christian Muslim Jewish and Buddhist contexts as well as newer spiritual movements

The contributors examine prayer and ritual practices and familial educational and ritual spaces and relationships in a variety of cultural settings The volume reflects on the ways in which women subvert traditional or patriarchal religious practices and spaces both problematising and expanding existing notions of religious practice It also touches on research itself as a form of spiritual and academic practice considering ways in which women challenge androcentric modes of research as well as ways in which the subject of research in this case female faith may challenge the researcher s convictions and practice Blending case studies with empirical research this book will be an outstanding resource to theologians and researchers interested in Practical Theology Gender Studies Sociology of Religion and Anthropology **All Things Necessary** Marti

*The Spirit Driven Church* Terje Hegertun,2017-06-28 Must the church be either charismatic or sacramental In this book Terje Hegertun argues that she has the privilege of being both The Day of Pentecost formed her identity and shaped her conviction of being lifted on the arms of grace and pushed forward by the power from on high In the midst of her vulnerability and failure the worldwide faith community is a composition of the Spirit One of the greatest gifts the church may offer the world is simply to be church a charismatic sacramental fellowship a dwelling place of God s Spirit A church

nurtured by graceful charismatic and sacramental gifts fosters a mature congregational spirituality distinguished by hospitable relations Thus the Spirit of God plays the main role of being the comprehensive principle of Christian unity across denominational lines
