Like other members of the Aboriginal Stolen Generation, Bob Randall was taken from his family by white authorities. He was seven years old. As an adult he began the long process of finding his family again, being educated and establishing a career as an Aboriginal educator. He is now a renowned singer and performer, whose song 'My Brown Skin Baby They Take Him Away' has become a major rallying cry for the Stolen Generation.

Woven through Bob Randall's story like the Rainbow Serpent is a clear account of the Aboriginal worldview and philosophy. With great simplicity, he explains the Aboriginal principles of belief including the network of responsibilities binding all things together and its connections with the Dreaming, place, family and relationships and the spirit or soul. He links Aboriginal and Christian beliefs, and draws parallels with other world religions such as Buddhism.

At once a gripping autobiography and an outstandingly lucid account of Aboriginal spirituality and belief, *Songman* is a unique and compelling book.

Empire? Amanda Barry, 2008 Utilising a range of source material and a variety of theoretical and methodological approaches this ground breaking collection offers the reader new ways of assessing the uneven paths of mission endeavours and examines the ways in which Indigenous peoples responded to and took ownership of aspects of Christian and Western culture and spirituality *Indigenous Social Work around the World* John Coates, 2016-05-23 How can mainstream Western social work learn from and in turn help advance indigenous practice This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe including James Midgley Linda Briskman Alean Al Krenawi and John R Graham to discuss some of the most significant global trends and issues relating to indigenous and cross cultural social work The contributors identify ways in which indigenization is shaping professional social work practice and education and examine how social work can better address diversity in international exchanges and cross cultural issues within and between countries Key theoretical methodological and service issues and challenges in the indigenization of social work are reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice

Treasure in the Wilderness Andrew D. Mayes, 2023-06-29 This exciting resource on desert spirituality is quite unlike any other at once a physical journey to outstanding deserts of the planet and an odyssey of the soul A journey of discovery takes us across five continents as we venture to places few pilgrims reach the Gazan desert the Sahara the Australian outback the Athos wilderness and the Ordos Desert of China and the Syrian desert among others Evocative descriptions by early travelers and by the author immerse us into a diversity of wilderness landscapes stimulating the senses and the imagination Physicality leads to spirituality as we listen to compelling voices that speak to us poignantly across space and time including spiritual writers long forgotten or not well known These unearth for us the treasure we seek we uncover the distinctive charism of each desert offering us different and challenging ways of looking at the world and at the spiritual life We discover the unpredictable desert to contain unexpected priceless treasures of transformative wisdom that speak uncannily into our own contemporary spiritual search We see how these gems can energize and inspire our discipleship or spiritual practice As we embark on this spiritual quest we may never be the same again *Commitment and Complicity in Cultural Theory and Practice* B. Firat, S. De Mul, S. Van Wichelen, Sarah De Mul, Sonja Van Wichelen, 2009-05-21 An international line up of scholars examines the role of the intellectual in the twenty first century looking at the gap between contemporary cultural theory and cultural practice and asking whether knowledge and methodologies in the humanities can intervene in everyday politics and vice versa Defending Whose Country? Noah Riseman, 2012-12-01 In the campaign against Japan in the Pacific during the Second World War the armed forces of the United States Australia and the Australian colonies of Papua and New Guinea made use of indigenous peoples in new capacities The United States had long used American Indians as soldiers and scouts in frontier conflicts and in wars with other nations With the advent of the Navajo Code Talkers in the Pacific theater

Native servicemen were now being employed for contributions that were unique to their Native cultures In contrast Australia Papua and New Guinea had long attempted to keep indigenous peoples out of the armed forces altogether With the threat of Japanese invasion however they began to bring indigenous peoples into the military as guerilla patrollers coastwatchers and regular soldiers Defending Whose Country is a comparative study of the military participation of Papua New Guineans Yolngu and Navajos in the Pacific War In examining the decisions of state and military leaders to bring indigenous peoples into military service as well as the decisions of indigenous individuals to serve in the armed forces Noah Riseman reconsiders the impact of the largely forgotten contributions of indigenous soldiers in the Second World War *Quantum Ecology* Stefano Calzati, Derrick De Kerckhove, 2024-11-12 An exploration of the emerging quantum technological paradigm and its effects on human consciousness and cultures In *Quantum Ecology* Stefano Calzati and Derrick de Kerckhove identify three technological ecologies linguistic digital and quantum to better understand today's shattered globalized contemporaneity and navigate the impact of soon to come quantum information technologies Today's societies based as they are on language and writing face disruption brought on by digital transformation which is not predicated on sharing meaning but on sheer computability This produces what the authors call an epistemological crisis From here the book explores how emerging quantum computers and communication will trigger an even deeper existential shift based on quantum physics principles of discreteness uncertainty and entanglement Enriched with evidence from biology anthropology sociolinguistics and information and cognitive sciences the authors draw upon diverse case studies to sustain a convincing philosophical and political argument The book's chapters move from a discussion about the coevolution of humans and language to the codependence of writing thinking and innovation then proceed to investigate datacracy the power of algorithms Finally the authors outline the looming psychocultural effects and geopolitical challenges of the nascent quantum technological paradigm

Made to Matter Fiona Probyn-Rapsey, 2013 Most members of the Stolen Generations had white fathers or grandfathers Who were these white men This book analyses the stories of white fathers men who were positioned as key players in the plans to assimilate Aboriginal people by breeding out the colour The plan to breed out the colour ascribed enormous power to white sperm and white paternity to elevate uplift and disperse Aboriginality in whiteness to blank out to aid cultural forgetting The policy was a cruel failure not least because it conflated skin colour with culture and assumed that Aboriginal women and their children would acquiesce to produce future whites It also assumed that white men would comply as ready appendages administering whiteness through marriage or white sperm This book attempts to put textual flesh on the bodies of these white fathers and in doing so builds on and complicates the view of white fathers in this history and the histories of whiteness to which they are biopolitically related

Aboriginal Environmental Knowledge Catherine Laudine, 2016-09-17 Whilst there are popular ideas about which champion Aboriginal environmental knowledge many of these are based more on romantic notions than on any detailed understanding of what might be the content of this knowledge This book is based on a grounded and broad assessment of less well known details of Aboriginal knowledge and provides both a great deal of detail and a new assessment of rituals and practices Aboriginal environmental knowledge is examined here as an integrated source of both religious and scientific knowledge An important finding is that Aboriginal environmental knowledge also includes knowledge about education for attitudes considered appropriate for survival Though evidence for this is readily available in the literature it has not been part of current depictions of Aboriginal environmental knowledge
