Songs Beyond The Kalevala Transformations Of Oral Poetry:

Songs Beyond the Kalevala Anna-Leena Siikala, Sinikka Vakimo, 1994 The title of this volume refers to the tradition of rune singing which was the foundation for Elias Lonnrot's compilation of the Kalevala epic The interest in the epic poetry chosen as the basis for the Kalevala both gave birth to Finnish folkloristics as well as constituted its most important area from the 18th to the beginning of the 20th century The comparative research method created by Julius Krohn which was perfected and formulated into the historical geographical method by his son Kaarle Krohn formed the foundation for Kalevala poetry research in the beginning of the last century A research method derived from evolutionist and diffusionist cultural theories sought answers to questions concerning the age and character of the poetry These questions had a central importance in the creation of the young nation state's cultural capital The typological research established in the 1930s and the textual critique of the 1950s did not question these basic premises although the theoretical centres of attention had shifted Historical types of examination preserved their status because a rune tradition which contained pre Christian mythology and ancient ethnographic elements was considered to provide a glimpse into the past of the non literate Finnish Karelian culture

Finnish Folk Poetry and the Kalevala Thomas A. DuBois, 2022-02-13 Since its initial publication in the early nineteenth century Elias Lonnrot's Finnish epic Kalevala has attracted international interest and scholarship However the author comments that the distorting lenses of translation cultural difference and historical distance have rendered the work a cryptic and often misinterpreted text outside of its country of origin Even within Finland scholars have found it difficult at times to judge the relation of the Kalevala to its oral sources Lonnrot's meticulous notes and discussions of intent and accomplishment make clear what he changed and how he went about it but give us less inkling of why This study's view is that the key to understanding Lonnrot's changes lies in Romantic aesthetics and in the intellectual and socio political agendas which they encode Lonnrot created a Romantic epic out of Baltic Finnic folk poetry an epic complete with the narrative generic gendered and political characteristics of literary epics in nineteenth century Europe

[The Oxford Handbook of Feminist Theology](#) Mary McClintock Fulkerson, Sheila Briggs, 2012 This volume highlights the relevance of globalization and the insights of gender studies and religious studies for feminist theology It focuses on the changing global contexts for the field and its movement towards new models of theology distinct from the forms of traditional Christian systematic theology and of secular feminism

Storied and Supernatural Places Ülo Valk, Daniel Sävborg, 2018-05-09 This book addresses the narrative construction of places the relationship between tradition communities and their environments the supernatural dimensions of cultural landscapes and wilderness as they are manifested in European folklore and in early literary sources such as the Old Norse sagas The first section Explorations in Place Lore discusses cursed and sacred places churches graveyards haunted houses cemeteries grave mounds hill forts and other tradition dominants in the micro geography of the Nordic and Baltic countries both retrospectively and from synchronous perspectives The

supernaturalisation of places appears as a socially embedded set of practices that involves storytelling and ritual behaviour. Articles show how places accumulate meanings as they are layered by stories and how this shared knowledge about environments can actualise in personal experiences. Articles in the second section Regional Variation Environment and Spatial Dimensions address ecotypes milieu morphological adaptation in Nordic and Baltic Finnic folklores and the active role of tradition bearers in shaping beliefs about nature as well as attitudes towards the environment. The meaning of places and spatial distance as the marker of otherness and sacrality in Old Norse sagas is also discussed here. The third section of the book Traditions and Histories Reconsidered addresses major developments within the European social histories and mentalities. It scrutinizes the history of folkloristics its geopolitical dimensions and its connection with nation building as well as looking at constructions of the concepts Baltic Nordic and Celtic. It also sheds light on the social base of folklore and examines vernacular views toward legendry and the supernatural.

Mythic Discourses Frog, Anna-Leena Siikala, Eila Stepanova, 2012-12-31. Mythic discourses in the present day show how vernacular heritage continues to function and be valuable through emergent interpretations and revaluations. At the same time continuities in mythic images motifs myths and genres reveal the longue dur e of mythologies and their transformations. The eighteen articles of Mythic Discourses address the many facets of myth in Uralic cultures from the Finnish and Karelian world creation to Nenets shamans offering multidisciplinary perspectives from twenty eastern and western scholars. The mythologies of Uralic peoples differ so considerably that mythology is approached here in a broad sense including myths proper religious beliefs and associated rituals. Traditions are addressed individually typologically and in historical perspective. The range and breadth of the articles presenting diverse living mythologies their histories and relationships to traditions of other cultures such as Germanic and Slavic all come together to offer a far richer and more developed perspective on Uralic traditions than any one article could do alone.

Fibula, Fabula, Fact Joonas Ahola, Frog, Clive Tolley, 2014-12-31. The chapters of Fibula Fabula Fact The Viking Age in Finland are intended to provide essential foundations for approaching the important topic of the Viking Age in Finland. These chapters are oriented to provide introductions to the sources methods and perspectives of diverse disciplines in a way that is accessible to specialists from other fields specialists from outside Finland and also to non specialist readers and students who may be more generally interested in the topic. Rather than detailed case studies the contributors have sought to negotiate definitions of the Viking Age as a historical period in the cultural areas associated with modern day Finland and in areas associated with Finns Karelians and other North Finnic linguistic cultural groups more generally. Within the incredible diversity of data and disciplines represented here the Viking Age tends to be distinguished by differentiating it from earlier and later periods while the geographical space is quite fluidly defined for this era which was long before the construction of modern nations with their fenced and guarded borders.
