Peak Music Experiences Ben Green,2021-10-30 Peak music experiences are a recurring feature of popular music journalism biography and fan culture where they are often credited as pivotal in people s relationships with music and in their lives more generally Ben Green investigates the phenomenon from a social and cultural perspective including

discussions of peak music experiences as sources of inspiration and influence as a core motivation for ongoing musical and social activity the significance of live music experiences and the key role of peak music experiences in defining and perpetuating music scenes The book draws from both global media analysis and situated ethnographic research in the dance hip hop indie and rock n roll music scenes of Brisbane Australia including participant observation and in depth interviews These case studies demonstrate the methodological value of peak music experiences as a lens through which to understand individual and collective musical life The theoretical analysis is interwoven with selected interview data illuminating the profound and everyday ways that music informs people s lives The book will therefore be of interest to the interdisciplinary field of popular music studies as well as sociology and cultural studies beyond the study of music **The Life and Music of**

of David Bowie James E. Perone, 2007-06-30 All Music Guide's Stephen Thomas Erlewine has written "Even when he was out of fashion in the 80s and 90s it was clear that Bowie was one of the most influential musicians in rock for better or worse. In this comprehensive analysis of David Bowie's career, author James Perone examines the many identities and styles Bowie has developed over the years and in so doing provides a stunning chronicle of creativity at work. Born David Jones in a London suburb in 1947, David Bowie changed his name in the late 60s to avoid confusion with the singer David Jones of The Monkees. This name change would turn out to be a highly prescient act for in incorporating an exceptionally wide variety of styles, Bowie would become the most notorious chameleon of the rock era. Due in large part to his early success in the glam rock subgenre and his claims of homosexuality dismissed by many writers as a ploy to generate public interest and record sales, Bowie raised serious issues about sexual orientation in rock music regardless of whether or not his claimed homosexuality was genuine or part of his on-stage character. His regular use of theatrical personae also raises interesting issues concerning authenticity and the perception of authenticity in rock music. Although Bowie has been primarily an album artist, his recordings of "Fame," "Golden Years," "Let's Dance," "China Girl," "Blue Jean," and "Dancing in the Streets" all made it into the Billboard top 10 singles charts. Of these, all but one was written or co-written by Bowie. Even more notable are the songs he wrote and recorded that have made an impact far in excess of their chart standing. These include "Space Oddity," "Rebel, Rebel," "Changes," "Modern Love," and "Young Americans." From his early 1970s albums like *Hunky Dory* and *The Rise and Fall of Ziggy Stardust and the Spiders from Mars* in both of which he assumed the character of the fictional androgynous Stardust to *Diamond Dogs*, *Heroes*, *Tin Machine*, and *Black Tie White Noise*, Bowie's albums generated both significant word-of-mouth interest and some of the most contentious critical reactions of any artist of the rock era. This long overdue investigation lets Bowie's artistry speak for itself. After a biographical introduction, chronologically arranged chapters discuss the singer's fascinating and iconoclastic body of work. A discography and annotated bibliography conclude the book." **What in the World is Music?**

Alison E. Arnold, Jonathan C. Kramer, 2023-09-13 *What in the World is Music: Second Edition* is an undergraduate interactive e-textbook that explores the shared ways people engage with music and how humans organize and experience sound. It adopts a global approach featuring more than 300 streaming videos and 50 streaming audio tracks of music from around the world. Drawing from both musicological and ethnomusicological modes of inquiry, the authors explain the nature and meaning of music as a universal human practice, making no distinction between Western and non-Western repertoires while providing students with strong points of connection to the ways it affects their own lives. The *What in the World is Music* curriculum is divided into five parts with a fully integrated multimedia program linked directly to the chapters. *The Foundations of Music I* proposes a working definition of music and considers inquiry-guided approaches to its study. Why do humans have innate musical perception? How does this ability manifest itself in the human voice? A catalog of musical instruments showcases global diversity and human ingenuity. *The Foundations of Music II* continues the inquiry-guided approach, recognizing the

principles by which musical sound is organized while discussing elements such as rhythm melody harmony texture form genre and style Where did music come from What is it for Music and Identity examines how music operates in shaping negotiating and expressing human identity and is organized around three broad conceptual frames the group hybridity and conflict Music and the Sacred addresses how music is used in religious practices throughout the world chanting sacred texts and singing devotional verses inspiring religious experience such as ecstasy and trance and marking and shaping ritual space and time Music and Social Life analyzes the uses of music in storytelling theater and film It delves into the contributions of sound technologies while looking at the many ways music enhances nightlife public ceremonies and festivals **Dem Dry**

Bones Luke A. Powery, 2012-12-01 In an age when the so called prosperity gospel holds sway in many Christian communities or the good news of Christ is reduced to feel good bromides it would seem that death has little place in contemporary preaching Embracing the vision of the valley of dry bones in Ezekiel 37 as a metaphor for preaching in the Spirit acclaimed homiletician Luke Powery asserts that death is the context for all preaching In fact the Spirit leads preachers to the context of death each Sunday in order to proclaim a word of life that ultimately breathes hope into people s lives Yet many preachers avoid death because they are at a loss of what to say about it and do not realize its vital connection to the substance of Christian hope As a result the church is too often left with sermons that are fundamentally devoid of hope Dem Dry Bones aims to remedy some of the theological and homiletical shortcomings in contemporary preaching by looking closely at the African American spirituals tradition Through this study Powery demonstrates how to preach in the Spirit so that proclaiming death becomes an avenue toward hope In short no death no hope **Songs of Life** John Williamson Palmer, 2018-03-22
