The Song of Songs Richard Alfred Norris (Jr.), Jr. Norris, Richard A., 2003-11-18 The Song of Songs traditionally attributed to Solomon is a collection of lyrics that celebrate in earthly terms the love of a bridegroom and a bride Throughout the course of early Christian history the Song of Songs was widely read as an allegory of the love of Christ both for the church and for its individual members In reading the Song this way Christians were following in the steps of Jewish exegetes who saw the Song as celebrating the love of God for Israel In The Song of Songs the inaugural volume of The Church's Bible Richard A Norris Jr uses commentaries and sermons from the church's first millennium to illustrate the original Christian understanding of Solomon's beautiful poem In recent times the Song of Songs has been more a focus of literary than of religious interest but Norris's work shows that for early Christians this text was counted with the Psalms and the Gospels

among those Scriptures that touched most deeply on the believer's relation to God. All in all, Norris's *Song of Songs* is a masterful work that aptly acquaints contemporary readers with the church's traditional way of discerning in this text a guide to the character of Christian belief and life. This volume and the entire Church's Bible series will be welcomed by preachers, teachers, students, and general readers alike.

The Harp of Prophecy Brian E. Daley, Paul R. Kolbet, 2015-01-30. The Psalms generated more biblical commentary from early Christians than any other book of the Hebrew and Christian canon. While advances have been made in our understanding of the early Christian preoccupation with this book and the traditions employed to interpret it, no study on the Psalms traditions exists that can serve as a solid academic point of entry into the field. This collection of essays by distinguished patristic and biblical scholars fills this lacuna. It not only introduces readers to the main primary sources but also addresses the unavoidable interpretive issues present in the secondary literature. The essays in *The Harp of Prophecy* represent some of the very best scholarly approaches to the study of early Christian exegesis, bringing new interpretations to bear on the work of influential early Christian authorities such as Athanasius, Augustine, and Basil of Caesarea. Subjects that receive detailed study include the dynamics of early Christian political power, gender expressions, and the ancient conversation between Christian, Jewish, and Greek philosophical traditions. The essays and bibliographic materials enable readers to locate and read the early Christian sources for themselves and also serve to introduce the various interdisciplinary methods and perspectives that are currently brought to bear on early Christian psalm exegesis. Students and scholars of theology and biblical studies will be led in new directions of thought and interpretation by these innovative studies.

Engaging the Doctrine of Marriage Matthew Levering, 2020-08-12. This book is the next volume in Levering's *Engaging Doctrine* series. The prior volume of the series examined the doctrine of creation. The present volume examines the purpose of creation, the marriage of God and humans, God created the cosmos for the purpose of the marriage of God and his people, and through his people, the marriage of God and the entire creation. Given that the central meaning or prime analogate of marriage is the marriage of God and humankind, the study of human marriage needs to be shaped by this eschatological goal and foregrounded as a dogmatic theme. After a first chapter defending and explaining the biblical witness to the marriage of God and his people, the book explores various themes: marriage as an image of God, original sin as the fall of the primordial marriage, the cross of Jesus Christ and marital self-sacrificial love, the procreative and unitive ends of marriage, marriage as a sacrament, and marriage's importance for social justice and for the upbuilding of the kingdom of God. Along the way, the book provides an introduction to the key biblical, patristic, medieval, modern, and contemporary thinkers and controversies regarding the doctrine of marriage.
