persons IQ is secretly tested in childrens clinics military academies prisons and finally in terrorist interrogations at Guantanamo Bay Genetic swaps are performed with dramatic results Dr Stewarts associations with two neurosurgeons who are also interested in genetic research bring about the discovery of the C mystery gene An amazing observation is made after testing humans at a secret lab in Pahrump Nevada This gene proves to be fundamental in a persons thought regarding faith and trust This leads to tests with Atheists Agnostics Catholics and Muslims Tests show how a suicide bomber constantly reinforces his faith gene through free will to enable him to destroy his own life and that of others Finally The President of the United States directs Dr Stewart to devise a program to be used on all foreign students visiting the United States that would make them our secret ambassadors without them ever knowing it This is not a far fetched idea New gene discoveries are being made as you read this novel The purpose of this book is to give a simple warning As a world leader the United States must be vigilant not to exchange human control for human rights This new knowledge is dangerous in the wrong hands
