Divine Audacity Peter S. Dillard, 2022-01-01 In Divine Audacity Peter Dillard presents a historically informed and rigorous analysis of the themes of mystical union volition and virtue that occupied several of the foremost theological minds in the late thirteenth and early fourteenth centuries In particular the work of Marguerite Porete raises complex questions in these areas which are further explored by a trio of her near contemporaries Their respective meditations are thoroughly analysed and then skilfully brought into dialogue What emerges from Dillard's synthesis of these voices is a contemporary mystical theology that is rooted in Hugh of Balma's affective approach sharpened through critical engagement with Meister Eckhart's intellectualism and strengthened by crucial insights gleaned from the writings of John Ruusbroec The fresh examination of these thinkers one of whom paid with her life for her radicalism will appeal to philosophers and theologians alike while Dillard's own propositions demand attention from all who concern themselves with the nature of the union between the soul and God

The Wheels of Soul in Education, 2010-01-01 This book boldly re frames the basis of our collective approach to education It presents a compelling argument for an educational world view that perceives self society and the universe as an undivided whole a holarchy of wholes within wholes wheels within wheels Soul in education is an international movement rooted in the holistic education paradigm It challenges us individually and collectively to re ensoul our educational thinking and practice from the inside out At the heart of this educational world view is an appreciation of the spiritual presence of the soul as the source self that exists beyond the surface appearance of personality and infuses an individual with positive transformative qualities that energise lifelong learning and creative living The essays in this book describe practices that attend to the cultivation of the soul in a range of educational contexts Written by holistic educators from around the globe they build a picture of education that develops a multidimensional understanding

of self and other Through creativity paradox and mystery teachers invite the emergence of soul qualities in themselves and learners qualities such as joy justice caring ethics compassion and tolerance providing the vital basis for the creation of a more equitable social reality in the 21st century and beyond *Inspired Knowledge in Islamic Thought* Alexander Treiger,2011-08-22 This book argues that the Muslim theologian Abu Hamid al Ghazali was a popularizer of philosophy more than its critic and that his theory of mystical cognition is based on the theory of prophecy of the philosopher Avicenna

What is Soul?

Wolfgang Giegerich, 2020-01-06 Rooted in the metaphysics of bygone times the notion of soul in our Western tradition is packed with associations and meanings that are incompatible with the anthropological and naturalistic thinking that prevails in modernity Whereas treatises of old conceived of the soul as an infinite immaterial substance which was the ground of man's hope for eternal salvation modern psychology has for the most part discarded the concept in favor of more tangible touchstones such as the emotions desires and attachments which characterize man as a finite bodily existing positive fact An exception to this trend has been the analytical psychology of C G Jung Against the positivistic spirit of his times Jung insisted upon a psychology with soul that is a psychology based upon the hypothesis of an autonomous mind In this volume Wolfgang Giegerich once again takes up the Jungian commitment to a psychology with soul Agreeing with Jung that the soul concept is indispensable for a truly psychological psychology he supplements and re-orientates the Jungian approach to both this concept and the phenomenology of the soul by means of a whole series of nuanced discussions that are as rigorous as they are thoroughgoing The result is nothing short of a tour de force Tarrying with the negative Giegerich's particular contribution resides in his showing the movement against the soul to be the soul's own doing In animus moments of itself consciousness in the form of philosophy and Enlightenment reason turned upon itself as religion and metaphysics Far from abolishing the soul however these incisive negations were themselves negated As if dancing upon its own demise the soul came home to itself not as an invisible metaphysical substance but more invisibly still as the logically negative evaporation of that substance into the form of subject or even better said into psychology

The Soul of God Ray S. Anderson,2004-08-02 In this theological memoir Ray Anderson takes us on his own journey from the prairie to the pulpit and from the soul of a believer into the soul of a theologian As a sequel to his earlier book *The Soul of Ministry* he shares with us the process by which his own spiritual hunger moved from uneasiness and unrest into a deeper sense of the soul of theology as exploration into the very soul of God Part One In Part Two each chapter traces out the contours of a theology which sings as well as stings After more than 40 years of ministry as pastor teacher and theologian Anderson presents a theological hermeneutic by which Scripture and human experience can be read on the same page If reading this book produces astonishment and wonder at the depth and daring to which God s grace encounters and embraces us through Jesus Christ then that itself will lead us with awe and reverence to behold the soul of God
