Ivory have insisted on maintaining their independence More importantly this book shows how Merchant Ivory have always taken considerable care in casting their films as well as treating actors with respect This is a deliberate policy designed to bring out one of the triumvirate s principal thematic concerns running throughout their work the impact of the clash of cultures on individuals Partly this has been inspired by their collective experiences of living and working in different cultures They do not offer any answers to this issue rather they believe that their task is simply to raise awareness to make filmgoers conscious of the importance of cultural sensitivities that assume paramount significance in any exchange whether verbal or nonverbal
