Service of Emergent India Jaswant Singh, 2007-09-21 In Service of Emergent India is an evocative insider's account of a

crucial period in India's history. It provides an in-depth look at events that changed the way the world perceived India and a unique view of Indian statecraft. As Minister of External Affairs, Defense and Finance in the BJP-led governments of 1996 and 1998-2004, Jaswant Singh was the main foreign policy spokesman for the government of Atal Bihari Vajpayee during the 1998 nuclear tests by India and Pakistan, the hijacking of Indian Airlines flight IC 814, and the Kargil conflict between India and Pakistan, as well as other key events. In an account that is part memoir, part analysis of India's past and future prospects, Singh reflects on his childhood in rural Rajasthan at the end of the colonial period, his schooling and military training, and memories of Indian Independence and the Partition of India and Pakistan. He analyzes the first four decades of Indian nationhood under Congress Party rule, ongoing tensions between India and Pakistan, Sino-Indian relations, and post-9/11 U.S.-Indian relations.

Being Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective
Christopher Carr, 2022-01-05. This book in two volumes breathes fresh air empirically, methodologically, and theoretically into understanding the rich ceremonial lives, the philosophical, religious knowledge, and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE. The first volume defines cross-culturally for the first time the ritual drama as a genre of social performance. It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul-like essences of their deceased make the journey to an afterlife. The second volume builds and critiques ten formal cross-cultural models of personhood and the self and infers the nature of Scioto Hopewell people's ontology. Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers: a relational, collective concept of the self defined by the ethical quality of the relationships one has with other beings, and a concept of multiple soul-like essences that compose a human being and can be harnessed strategically to create familial-like ethical bonds of cooperation among individuals and communities. The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self, and of Hopewell people's strategic uses of these, are informed by three large surveys of historic Woodland and Plains Indians' narratives, ideas, and rites about journeys to afterlives, the creatures who inhabit the cosmos, and the nature and functions of soul-like essences, coupled with rich contextual archaeological and bioarchaeological taphonomic analyses. The bioarchaeological taphonomic method of *l'anthropologie de terrain*, new to North American archaeology, is introduced and applied. In all the research in this book, vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples.

Making Things Better A. David Napier, 2014. Napier demonstrates how non-Western exchange practices and beliefs can redress the ills of contemporary economic systems in which our relationship to material things transforms animate elements of social life into inanimate commodities. Such processes separate objects from domains of deep meaning and release

individuals from the moral relationships on which feelings of attachment community responsibility and a sense of place depend

Religions and Rituals Prof. Dulal Bhattacharya, Warring religions and continuous abuse of Hinduism prompted me to write this book In the usual comparative religion approach similes are shown while contrasts and conflicts are avoided with a passing mention I have written both similes and contrasts for a better evaluation In this context I remember a story that I read about the King of Hispaniola as told by the boasting Spaniards After the Spaniards captured the King of Hispaniola they put him up on stakes to burn Before setting the fire the padre of the Spaniards asked the King if he would agree to accept Christianity since it would not only save his life but would also guarantee his entry into heaven after death The King after listening to the padre asked if all Spaniards go to heaven after death The padre answered in the affirmative The King then said that heaven must be a very vile place full of cruel people and the King further added that they can put fire so that he can happily join his forefathers This story is a good reminder of how religions can make people cruel unless there is a good way of self evaluation This book seeks to fill up that gap in the study of comparative religion It will supplement contemporary books like Snakes in Ganga by Rajeev Malhotra and documentary films like The Kashmir Files by Vivek Agnihotri

Hero, Hawk, and Open Hand Richard F. Townsend, 2004-01-01 Along the Ohio Tennessee and Mississippi Rivers the archaeological remains of earthen pyramids plazas large communities and works of art and artifacts testify to Native American civilizations that thrived there between 3000 B C and A D 1500 This fascinating book presents exciting new information on the art and cultures of these ancient peoples and features hundreds of gorgeous photographs of important artworks artifacts and ritual objects excavated from Amerindian archaeological sites Drawing on excavation findings and extensive research the contributors to the book document a succession of distinct ancient populations in the pre Columbian world of the American Midwest and Southeast A team of interdisciplinary scholars examines the connections between archaeological remains of different regions and the themes forms and rituals that continue in specific tribes of today The book also includes the personal reflections of contemporary Native Americans who discuss their perspectives on the significance of the fascinating and beautiful prehistoric artifacts as well as their own cultural practices today

Masters of the Middle Waters Jacob F. Lee, 2019-03-11 A riveting account of the conquest of the vast American heartland that offers a vital reconsideration of the relationship between Native Americans and European colonists and the pivotal role of the mighty Mississippi America's waterways were once the superhighways of travel and communication Cutting a central line across the landscape with tributaries connecting the South to the Great Plains and the Great Lakes the Mississippi River meant wealth knowledge and power for those who could master it In this ambitious and elegantly written account of the conquest of the West Jacob Lee offers a new understanding of early America based on the long history of warfare and resistance in the Mississippi River valley Lee traces the Native kinship ties that determined which nations rose and fell in the period before the Illinois became dominant With a complex network of allies stretching from Lake Superior to Arkansas the Illinois were at the height of their power in 1673 when the first French explorers fur trader Louis Jolliet and Jesuit priest Jacques Marquette

made their way down the Mississippi Over the next century a succession of European empires claimed parts of the midcontinent but they all faced the challenge of navigating Native alliances and social structures that had existed for centuries When American settlers claimed the region in the early nineteenth century they overturned 150 years of interaction between Indians and Europeans Masters of the Middle Waters shows that the Mississippi and its tributaries were never simply a backdrop to unfolding events We cannot understand the trajectory of early America without taking into account the vast heartland and its waterways which advanced and thwarted the aspirations of Native nations European imperialists and American settlers alike
