Sound and the Visual Arts Jean-Yves Bosseur, 1993 Musician and musicologist Jean Yves Bosseur explores the growing relationship between the plastic arts and music in the world of contemporary art This trend is shown in its aesthetic and historical context through interviews with Iannis Xenakis Francis Miroglio Takis John Cage Milan Knizak Wolf Vostell Max Neuhaus Nam June Paik and Stan Douglas Sound Art Revisited Alan Licht, 2019-08-22 The first edition of *Sound Art Revisited* published as *Sound Art Beyond Music Between Categories* served as a groundbreaking work toward defining this emerging field and this fully updated volume significantly expands the story to include current research since the book's initial release Viewed through a lens of music and art histories rather than philosophical theory it covers dozens of artists and works not found in any other book on the subject Locating sound art's roots across the centuries from spatialized church music to the technological developments of radio sound recording and the telephone the book traces the evolution of sound installations and sound sculpture the rise of sound art exhibitions and galleries and finally looks at the critical cross-pollination that marks some of the most important and challenging art with and about sound being produced today

Rubin, 2017-07-05 Introducing the concept of music and painting as rival sisters during the nineteenth century this interdisciplinary collection explores the productive exchange from rivalry to inspiration to collaboration between the two media in the age of Romanticism and Modernism The volume traces the relationship between art and music from the opposing claims for superiority of the early nineteenth century to the emergence of the concept of synesthesia around 1900 This collection puts forward a more complex history of the relationship between art and music than has been described in earlier works including an intermixing of models and distinctions between approaches to them Individual essays from art history musicology and literature examine the growing influence of art upon music and vice versa in the works of Berlioz Courbet Manet Fantin Latour Rodin Debussy and the Pre-Raphaelites among other artists The Feminine Musique Sabrina Pena Young, 2009 *The Feminine Musique: Multimedia and Women Today* traces the intersection of experimental music and new media through the works of composers and artists at the turn of twentieth-century America An invaluable addition to any music, visual arts, or historical library collection *The Feminine Musique: Multimedia and Women Today* gives a voice to the sights and sounds of innovative women such as Laurie Anderson Alison Knowles Brenda Hutchinson Pauline Oliveros Pamela Z Yoko Ono Meredith Monk Maggie Payne Sylvia Pengilly Madonna Lydia Lunch and countless others who embraced social change, technology, and the arts to create compelling and sometimes controversial works **MultiMedia** Anne Cranny-Francis, 2005-06-07 This book provides an accessible introduction to the meaning-making practices of multimedia It will help students by providing them with a framework with which to analyse texts and provides some useful suggestions for further investigation of the topic *Learning Media and Technology* This book provides an accessible and much-needed introduction to the diversity of multimedia

appearing and proliferating in our society The phenomenal growth of multimedia has given rise to debates on the role of technology the skills required for their production and use and the ethics and politics involved in these new embodied interactions Anne Cranny Francis develops a clear framework for those seeking to understand the complex world of multimedia and its impact on everyday life SOUND AND THE VISUAL ARTS.
