Music in the Flesh Bettina Varwig,2023-07-20 A corporeal history of music making in early modern Europe Music in the Flesh reimagines the lived experiences of music making subjects composers performers listeners in the long seventeenth century There are countless historical testimonies of the powerful effects of music upon the early modern body it is described as moving ravishing painful dangerous curative and miraculous while affecting the circulation of the humors the purification of the blood the dilation of the vessels and pores How were these early modern European bodies constituted that music generated such potent bodily spiritual effects Bettina Varwig argues that early modern music making practices challenge our modern understanding of human nature as a mind body dichotomy Instead they persistently affirm a more integrated anthropology in which body soul and spirit remain inextricably entangled Moving with ease across repertoires and regions sacred and vernacular musics and domestic and public settings Varwig sketches a musical physiology that is as historically illuminating as it is relevant for present day performance This book makes a significant contribution not just to the history of music but also to the history of the body the senses and the emotions revealing music as a unique access point for reimagining early modern modes of being in the world *The Sufi Message of Hazrat Inayat Khan: The Mysticism of Sound, Music, The Power of the Word, Cosmic Language* Hazrat Inayat Khan,2020-09-28 In this volume the second of The Sufi Message of Hazrat Inayat Khan an attempt has been made to group together most of the Sufi mystic s teaching concerning sound and music sound as the basis of creation and music as an

essential means towards spiritual development Having been a musician of renown before he gave up his art in order to dedicate himself entirely to the Sufi Message with which he was entrusted Inayat Khan readily followed the practice of the ancient Sufis in expressing esoteric truths in terms of sound and music He once described this as follows I gave up my music because I had received from it all that I had to receive To serve God one must sacrifice what is dearest to one and so I sacrificed my music I had composed songs I sang and played the vina and practicing this music I arrived at a stage where I touched the Music of the Spheres Then every soul became for me a musical note and all life became music Inspired by it I spoke to the people and those who were attracted by my words listened to them instead of listening to my songs Now if I do anything it is to tune souls instead of instruments to harmonize people instead of notes If there is anything in my philosophy it is the law of harmony that one must put oneself in harmony with oneself and with others I have found in every word a certain musical value a melody in every thought harmony in every feeling and I have tried to interpret the same thing with clear and simple words to those who used to listen to my music I played the vina until my heart turned into this very instrument then I offered this instrument to the divine Musician the only musician existing Since then I have become His flute and when He chooses He plays His music The people give me credit for this music which in reality is not due to me but to the Musician who plays on His own instrument
