**End of God-Talk** Anthony B. Pinn,2012-01-19 In this groundbreaking study Anthony B Pinn challenges the long held assumption that African American theology is solely theist arguing that this assumption has excluded a rapidly growing segment of the African American population non theists Rejecting the assumption of theism as the African American orientation Pinn poses a crucial question What is a non theistic theology **Dismantling Privilege:** Mary Elizabeth

Hobgood,2009-05-01 Mary Elizabeth Hobgood s bestselling *Dismantling Privilege An Ethics of Accountability* reminds us the categories of gender race and class are not biological givens but social constructs used to suppress some groups while giving power to others diminishing the lives of all humankind and forestalling the possibility of a better society Hobgood s proposed solution a politics of accountability and solidarity resonates throughout this new edition which also includes a fresh introduction updated statistics and a concluding chapter targeting ecological crisis as the most pressing concern for accountable disciples Additionally the book looks to the political stirrings in Africa and Latin America for inspiration in building the movement **Disability and Christian Theology Embodied Limits and Constructive Possibilities**

Deborah Beth Creamer,2009-01-05 Attention to embodiment and the religious significance of bodies is one of the most significant shifts in contemporary theology In the midst of this however experiences of disability have received little attention This book explores possibilities for theological engagement with disability focusing on three primary alternatives challenging existing theological models to engage with the disabled body considering possibilities for a disability liberation theology and exploring new theological options based on an understanding of the unsurprisingness of human limits The overarching perspective of this book is that limits are an unavoidable aspect of being human a fact we often seem to forget or deny Yet not only do all humans experience limits most of us also experience limits that take the form of disability at some point in our lives in this way disability is more normal than non disability If we take such experiences seriously and refuse to reduce them to mere instances of suffering we discover insights that are lost when we take a perfect or generic body as our starting point

for theological reflections While possible applications of this insight are vast this work focuses on two areas of particular interest theological anthropology and metaphors for God This project challenges theology to consider the undeniable diversity of human embodiment It also enriches previous disability work by providing an alternative to the dominant medical and minority models both of which fail to acknowledge the full diversity of disability experiences Most notably this project offers new images and possibilities for theological construction that attend appropriately and creatively to diversity in human embodiment

**Burning Center, Porous Borders** Eleazar S. Fernandez, 2011-10-17

Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal glocal mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace

Who is Afraid of Postmodernism? Stephan

Erp, André Lascaris, 2005

To the authors of this book today's world is postmodern They see a fragmented world It seems to have become implausible to find a common point of view a unity in purpose or truth Postmodernity challenges Christian faith because it appears to go against the very grain of a sense of tradition communion and commitment On the eve of his election pope Benedict XVI warned against the dictatorship of relativism Would it still be possible to find genuine Christian ways to live in postmodern times This collection of essays by a group of Dutch theologians will stimulate the imagination of anyone who reads them

*Overcoming Religious Illiteracy* D. Moore, 2007-10-02

In *Overcoming Religious Illiteracy* Harvard professor and Phillips Academy teacher Diane L Moore argues that though the United States is one of the most religiously

diverse nations in the world the vast majority of citizens are woefully ignorant about religion itself and the basic tenets of the world's major religious traditions The consequences of this religious illiteracy are profound and include fueling the culture wars curtailing historical understanding and promoting religious and racial bigotry In this volume Moore combines theory with practice to articulate how to incorporate the study of religion into the schools in ways that will invigorate classrooms and enhance democratic discourse in the public sphere

**Theological Perspectives for Life, Liberty, and the Pursuit of Happiness** A. Isasi-Diaz, M. Fulkerson, R. Carbine, 2013-11-07 Rather than wield religion as a weapon or a ruse in

irrational appeals the book attempts to reimagine a shared American mythos and ethos by reminding us of our shared stake in creating an America committed to the life of all peoples and species and to the full developments of our capabilities as an exercise of liberty

*Religious Naturalism Today* Jerome A. Understanding and Transforming the Black Church Anthony B. Pinn, 2010-01-01 What is the nature and purpose of the Black Church What is the relationship of the scholar of religion to the Black Church While black churches have been a major component of the religious landscape of African American communities for centuries little critical attention has been given to these questions outside an apologetic stance This book seeks to correct this trend by examining some of the major issues facing black churches in the twenty first century From a challenge to traditional ways of addressing sexism within black churches to African American Christianity's relationship to popular culture this set of reflections seeks to offer new perspectives on what it might mean to be Black and Christian in the United States Anthony Pinn's volume seeks to critically understand and sympathetically transform the Black Church Carrying on in the tradition of William R Jones Pinn's perspective on the Black Church is suspicious loving critical committed exasperating and exhilarating One may not always agree with his conclusions but one cannot ignore his penchant for ferreting out the truth This book is a passionate yet balanced argument which must be heard by anyone who is interested in the future of the black church James H Evans JR

Robert K Davies Professor of Systematic Theology Colgate Rochester Crozer Divinity School Pinn is required reading in every Black Church Studies department and theological curriculum that seeks self understanding transformation and healing and an indispensable interlocutor in the broader public conversation about the American dilemma and its democratic possibilities Walter Earl Fluker Coca Cola Professor of Leadership Studies Morehouse College

**The Virtues of Ignorance** Bill

Vitek, Wes Jackson, 2008-05-01 Human dependence on technology has increased exponentially over the past several centuries

and so too has the notion that we can fix environmental problems with scientific applications

**The Virtues of Ignorance** Complexity Sustainability and the Limits of Knowledge proposes an alternative to this hubristic shortsighted and dangerous worldview The contributors argue that uncritical faith in scientific knowledge has created many of the problems now threatening the planet and that our wholesale reliance on scientific progress is both untenable and myopic Bill Vitek Wes Jackson and a diverse group of thinkers including Wendell Berry Anna Peterson and Robert Root Bernstein offer profound arguments for the advantages of an ignorance based worldview Their essays explore this philosophy from numerous perspectives including its origins its essence and how its implementation can preserve vital natural resources for posterity All conclude that we must simply accept the proposition that our ignorance far exceeds our knowledge and always will Rejecting the belief that science and technology are benignly at the service of society the authors argue that recognizing ignorance might be the only path to reliable knowledge They also uncover an interesting paradox knowledge and insight accumulate fastest in the minds of those who hold an ignorance based worldview for by examining the alternatives to a technology based culture they expand their imaginations Demonstrating that knowledge based worldviews are more dangerous than useful The Virtues of Ignorance looks closely at the relationship between the land and the future generations who will depend on it The authors argue that we can never improve upon nature but that we can by putting this new perspective to work in our professional and personal lives live sustainably on Earth

**On Violence** Bruce B. Lawrence, Aisha Karim, 2007-12-06 An interdisciplinary collection of primary texts on the subject of violence from Freud to Gramsci to Foucault from Ghandi to Osama bin Laden The editors introductions frame the texts within questions of how violence is generated and perpetuated in so

**Sacred Nature** Jerome A. Stone, 2017-06-26 Sacred Nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god Jerome Stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality He presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today This book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies

**The Cambridge Companion to Postmodern Theology** Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of

contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective. Leading theologians contribute to this clear and informative Companion which no student of theology should be without.

**The Community of the Weak** Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale. Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism, the social, the postmodern, and the theological intermingle in engaging and border crossing ways. *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch, using jazz as a metaphor, writing ethnographically messy texts out of the personal windows of lived experiences, combining fragments of autobiography with theological reconstruction. A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts. The author proposes a systematic and fundamental theology that is more jazzy, global, and narrative, deeply embedded in pastoral ministry to tell its postmodern story.

**Feminist Theology and the Challenge of Difference** Margaret D. Kamitsuka, 2007-07-20 Kamitsuka cautions the feminist theological community against the possibility of excluding some segments of the female population in its quest for liberation. She directs her readers' attention to the fact that most feminist theologians are writing from a position of privilege as white heterosexual women. Applying postmodern and postcolonial thought to better explore feminist theology, Kamitsuka argues that the feminist theological movement needs to consider a broader range of issues affecting women today. Focusing on women's experience as portrayed in literature, biblical narrative, and ethnographic writing, Kamitsuka examines the assumptions of first wave feminist theology and reflects on the roles of race and sexuality and their possible impact on feminist theological trends.

**Seeds of the Kingdom** Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times, there are still groups of people scattered throughout the world who are trying to live out utopian dreams. These communities challenge the inevitability and morality of dominant political and economic models. By putting utopian religious ethics into practice, they attest to the real possibility of social alternatives. In *Seeds of the Kingdom*, Anna L. Peterson reflects on the experiences of two very different communities: one inhabited by impoverished former refugees in the mountains of El Salvador and the other by Amish farmers in the Midwestern U.S. What makes these groups stand out among advocates of environmental protection, political justice, and sustainable development is their religious orientation. They aim, without apology, to embody the reign of God on earth. The Salvadoran community is grounded in Roman Catholic social thought, while the Amish adhere to Anabaptist tradition. Peterson offers a detailed portrait of these communities: history, social organization, religious life, environmental values, and agricultural practices. She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities, including a strong collective identity, deep attachment to local landscapes, a desire to preserve non

human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world
